

THE WINE COMPANY

SPIRITS

PORTFOLIO

FABBRICA DI LIQUORI

MISSION STATEMENT OF THE WINE COMPANY

The Wine Company is committed to finding high quality wines and spirits, to maintaining the highest level of expertise and professionalism in order to market and sell these wines and spirits to the food, wine and spirits industry, and to shipping, storing, and delivering these products in the most responsible manner possible.

THE PHILOSOPHY OF THE WINE COMPANY

Ultimately, everything a person seeks is a means to feel happy and fulfilled. The enjoyment of wine and spirits, nearly always accompanied by food and fraternity, offers a very direct and wonderfully mysterious route. The philosophy of The Wine Company is to model and advocate wine and spirits as a simple avenue to mindfully enjoying life. To that end we will strive to make our work a civilized, principled and compassionate part of our daily lives where we are reminded that one needn't look too far for a reason to be happy.

INTRODUCTION

You gotta' love it when a plan comes together! It has only been one year since The Wine Company announced our intentions to get into the spirits business and we are already publishing the third version of our portfolio, with our first cases of Japanese whisky having shipped on October 22nd of 2018.

Looking back, I had nixed the suggestion to expand into spirits several times over the years. Warehouse space, a saturated marketplace, and, most importantly, no talent for it made me wary. Dana Bonelli, Taylor Stein and Robbin Hilgert started talking. The major stumbling block, talent, had turned overnight into a jumping off point. Confidence and enthusiasm are infectious and the three of them soon had all of us skipping down the yellow brick road. What followed was a marvel of determination and drive.

The integrity and reputation that Dana and Taylor had earned for themselves in their previous roles in the industry has opened opportunities beyond my wildest hopes. I had hoped this would be fun and it is. Not only are the distillers a hoot but it is the mixologists that really blow my mind. There is a shared creative energy between them that lifts one up. Becoming the stewards of our new spirits producers has been enlightening and telling their stories to our customers has been a source of pride. We appreciate that they took a leap of faith in placing confidence in our reputation in joining us on this new venture.

The philosophy of our spirits portfolio mirrors what has always been important to us when it comes to the intention behind and assembly of our wine portfolio and not surprisingly, we have learned that our sales team is equally capable in both arenas of the trade representing wine and spirits producers with aplomb.

We offer thanks to you, our customer, for supporting our vision and placing confidence in our selections. Enjoy the portfolio!

-Larry Colbeck, CEO

DANA BONELLI
Spirits Portfolio Director

Eighteen years ago, as a student at University of Wisconsin Madison, I worked nights as a bartender at the Tornado Club; one of Wisconsin's most famous destinations for the iconic cocktail, the (brandy) Old Fashioned. Looking back, this was at the advent of Midwestern cocktail culture elevating itself to where we are today. For starters, my uniform was actually a tuxedo and we were still using the soda gun to top off those Old Fashioned drinks 'sweet' with 7-Up. However, the tide was already starting to turn; even back then a copy of Mr. Boston was on the back bar for reference, fresh fruit was juiced nightly, and rare spirits were becoming more readily available from distributors.

Having spent the last fifteen years working in all facets of the wine and spirits industry, my preferences for both have evolved with the times. When it comes to spirits I am most passionate about Mezcal, because it keeps me guessing and compelled to explore further. Someone very clever remarked to me one time that Mezcal is the only spirit that "tastes like time", which I would agree with and also find very profound for anyone who appreciates what the earth can give us when we are patient. I also love to taste spirits with a bitter profile and from a curiosity perspective, love trying to figure out the complex botanical profiles that are usually kept a secret by most European producers of vermouth and bitter liqueurs. As for wine, my heart will always unapologetically remain in France.

TAYLOR STEIN
Spirits Manager

I was first introduced to the world of wine and spirits at 19 working at a liquor store in Uptown Minneapolis. At first it was just a great summer job in during my summer breaks from college. Over time it developed a strong passion in me for wine and spirits that after college I became a manager and spirits buyer for the store.

From there I went into wholesale with various distributors where I most recently worked for The Wine Company for three years before taking a supplier job as regional manager for a wine and spirits importer. As a supplier I was able to get more in depth knowledge of the business side as well as sales. Wine has always been my comfort zone, but my work with spirits buyers and brands it quickly became a passion that I wanted to pursue as my primary interest.

This passion for spirits and the cocktail community has led me back to The Wine Company. I am very excited to be bringing my experience back to MN and The Wine Company and to be a part of growing and developing this very exciting portfolio. When I'm not working I can be found digging through record crates, playing soccer, or traveling with my wife Liz.

AKASHI

あかし

JAPANESE WHISKY

JAPAN'S FIRST WHISKY LICENSE
1919

WHITE OAK DISTILLERY HYOGO PREFECTURE, JAPAN

Located just a distiller's leap from Kobe Bay, Eigashima is the closest whisky distillery to the coast. The ocean laden air is reflected in the whisky's savoury, saline driven purity.

Akashi is named after its hometown - translated as the "Sun Rise City", where the owner's family has been

making traditional Japanese alcoholic beverages, like Nihonshu, for over three centuries.

Founded in 1888, Eigashima holds Japan's first whisky license, issued in 1919. Serious malt production did not begin until 1984, when the current copper pot stills were put into action and a focus on premium

whiskies began at their "White Oak" facility. Dedicated to crafting an insanely fine, super-sipping whisky, they limit production to insure that quality is preminent, making Eigashima's Akashi one of the rarest whiskies on the planet.

AKASHI WHISKY

This is whisky blended in the scotch tradition, with Japanese precision, the malt is lightly peated, and vatted, meaning only a mix of single malts are used in this blend. The vatting is mostly ex-bourbon, balanced by White Oak's unique variety of barrels.

TASTING NOTES: The nose is very fruity with apricots and dried fruits, and a shy note of honey.

AKASHI SHERRY CASK 5 YEAR - enquire

Matured for two years in sherry butts and three years in hogsheads creating a lightly peated Japanese Whisky.

TASTING NOTES: Notes of dried fruits, raisins and a nutty touch on the palate with a warming, slighty spicy finish.

AKASHI SINGLE MALT - enquire

A unique blend of sherry, brandy, bourbon, wine, American oak, and even ex-shochu barrels allows for a uniquely Japanese Single Malt.

TASTING NOTES: Smooth with lots of yellow apple, powder sugar, angelica fruits with hints of sea air.

AKASHI SAKE CASK SINGLE MALT - enquire

TASTING NOTES: Walnut & vanilla on the notes with a hint of peat. The palate explodes with bittersweet orange, mixed fruit and then chocolate covered banana. The finish leaves gorgeous notes of black tea leaves & leather. Amazing whisky.

WHEN SPRING IS WINDING DOWN, AND THE SUMMER SUN IS LOOMING, GREEN JAPANESE PLUMS, ALSO KNOWN AS UME, ARE HARVESTED.

THE MAKERS AT AKASHI BLEND THEIR WHISKY WITH THE GREEN PLUMS, UME AND ROCK SUGAR IN THEIR WHISKY. IT THEN RESTS FOR OVER HALF A YEAR UNTIL THE SWEET AND SOUR ARE INTEGRATED THROUGH OUT THIS SEASONAL TREAT. GREAT ON THE ROCKS, WITH SODA WATER AND FUN IN COCKTAILS.

AKASHI UME PLUM WHISKY

TASTING NOTES: The nose is extremely sweet with smells of chinese plums. short finish but extremely clean.

BALANCAN UNCERTIFIED

Balancan is a mythological place known as the land of jaguars & serpents, a spiritual afterlife for those seeking a sense of place. Balancan Spirits is a collection of uncertified spirits from Mexico. Each spirit represents the traditional methods unique to its origin. Sourced from small producers, Balancan Spirits embodies a sense of place — from the land, to the agave and spirit in each bottle.

DESTILADO ARTESANAL DE PAPALOMÉ 46.0% ABV

TUXCA ARTESANAL 46.0% - 49.0% ABV

THE UNCERTIFIED COLLECTION

BALANCAN is a mythological place known as the land of jaguars & serpents, a spiritual afterlife for those seeking a sense of place.

TUXCA ARTESANAL

Tuxca is an artisanal spirit distilled from a blend of wild agave growing throughout southern Jalisco & northern Colima, born on the fringes of one of the continent's most active volcanos.

The wild Lineño & Cimarron agaves are fermented in centuries-old craters, carved on rocky volcanic floors and brought to life using copper stills encased in Parota tree trunks.

Bapt & Clem's

Unusual Spirits Collection

A selection of the most beautiful discoveries of Marc Darroze

COUNTRY & REGION: FRANCE, SOUTHWEST
 APPELLATIONS: MIXES
 PRODUCER: MARC DARROZE
 FOUNDED: BAPT & CLEM STARTED IN 2015
 WEBSITE: WWW.BAPT-AND-CLEMS.COM

The story

Marc Darroze formally joined his father's artisan Armagnac firm in 1996 and soon thereafter took the helm. Over the next twenty years he developed close ties to farmers and producers in Armagnac and became intimately involved in distillation. At the same time, in the course of his travels around the world representing the Darroze brand, he visited other distillers to see how they did things. He's a dynamic man, Marc, ever curious and never one to sit still.

He befriended many of those distillers. He raised two sons named Baptiste and Clément. He came to have an extraordinary frame of reference with spirits, be it distillate made in France or overseas, and he acquired a fondness for rum (a logical step, given France's colonial legacy in the Caribbean Sea and Indian Ocean). Over time, an idea germinated and then quickly took shape: why not do a limited barrel selection of his favorite spirits from fellow distillers?

In 2015 he decided to go forward with Bapt & Clem's. With every spirit, the process was and is the same: Marc chooses one or two barrels—or makes a blend—from a distiller whom he has known for many years. The spirit has already been made and fully aged at its place of origin, and Marc's choice, a deeply personal one, is to buy the barrel or blend only if what he's tasting really sings to him. The spirit is then racked into a special container, shipped to France, and then racked into large glass containers to ensure freshness. Water is added if need be to bring the alcohol level down, but nothing else is added to the spirit. Each is bottled by demand.

In 2016, the first of the distillates arrived to the small Darroze warehouse in Armagnac and the first bottlings were undertaken. The rest is history...

MOLASSES

A blend of spirits from pot stills and column stills. The aging was finished chez Darroze in barrels previously used to age late-harvest Juraçon wine. Great purity, excellent accessibility.

SUGAR CANE

Brought up in bourbon casks in the Dominican Republic and finished in Gascony for ten months in decades-old Armagnac casks of 2,000 liters.

BONANTO

THE ULTIMATE APERITIVO

BARCELONA, SPAIN

Inspired by the rich aperitif culture, Bonanto chose to take a step further to create something entirely new.

Its versatility allows one to enjoy it just chilled on its own, with a touch of something sparkling, or as the basis for the most cutting-edge cocktails.

AN UNPRECEDENTED FORMULA FOR AN EXTRAORDINARY APERITIF

BONANTO is the result of a selection of more than 30 botanicals carefully chosen and macerated at their aromatic peak. Among its special ingredients are wormwood and Mediterranean plants like bay leaf, basil and thyme, as well as a selection of citrus fruits that enhance its freshness, and cherry distillate and apple that give it its unique personality.

The different stages of maceration are carried out at room temperature to ensure optimal extraction and to preserve the most fresh and delicate aromas.

A new concept in aperitifs with a wine base and 22% Alc./Vol. to give it character and aromatic intensity.

TASTING NOTES OF THE ULTIMATE APERITIVO

AROMA

Fresh and intense aroma of Mediterranean forest, with hints of ginger and a fruity background. The ripe citrus finish gives it freshness and rounds out the aromatic complexity.

TASTE

With a smooth and sweet entry on to the palate, its low sugar content and smooth texture give it subtlety and airiness, while it maintains a persistent velvety feel in the mouth. It proceeds with a potent citrus freshness, while slightly spicy and fruity notes come forward. Just the rich rouch of bitterness gives it greater depth and a longer finish.

BORDIGA

1888

PRODUCED IN CUNEO, ITALY

"Tradition is our present, and our future."

- Riccardo Molinero, Bordiga 1888

www.bordiga1888.it

A STORY OF PASSION

The history of Bordiga started a long time ago with an Occitan family from Piedmont, who established a distillery business at the base of the Alpine valleys, near the city of Cuneo. Today, the name of Bordiga is known in many parts of the world, thanks to the great dedication to their traditions.

The value of working in harmony with nature and the traditional handcrafted production process transmitted by the Bordiga family to the new members are the common thread between past and present.

Inside each Bordiga product, Bordiga has preserved the soul of the place of its origins, which is intensified by the unique and aromatic scent of mountain herbs.

With every sip, tradition and innovation weave together in a celebration of flavors, which exemplify the excellence of Bordiga's craft products, made in Italy for over 130 years.

ONCE UPON A TIME, THERE WAS A KNIGHT

Once upon a time, in the valleys of Piedmont, there was a Knight named Pietro Bordiga. Before being a Knight, Pietro Bordiga was a mountain man, to which he always showed a strong affection and respect.

In 1888, he started in Cuneo the business that kept him busy for the rest of his life: a company of wines, vermouth, spirits, and syrups made with the best mountain herbs, following the most authentic crafted tradition.

Cuneo was not a random choice. It was his native land and it was located in a very strategic position: at the bottom of the Alpine valleys, where the herbs come from – especially the genepy – and close to the Langhe, popular for great wine. At the same time Cuneo is well connected to Torino and to Genoa International Harbour. His great work was soon rewarded! In the early 1920's, Pietro Bordiga was invested with the military decoration of Knight of the Kingdom of Italy, as symbol for his commitment for defending the mountain economy and traditions.

A TRAMWAY STOP NAMED BORDIGA

At the beginning, Bordiga's offices were placed at Number 39 of Seminario Square, in Cuneo. "Six" was the official phone number of Bordiga, remaining the same from the beginning of the 20th century to the end of World War II. In 1911, the business was moved to Via Valle Maira 98, the current headquarters. This historical place still maintains the memory of the past times: an example is the old tramway track in front of the wall just outside the gate. Fully functional until the second half of the 20th century, the tramway line has been crucial for the company development for two reasons: the tramway facilitated, in fact, both the products transportation and the delivery of the herbs and wines necessary to make vermouth and spirits. This is the reason why the track outside the gate was named after the distillery.

VERMOUTH

BORDIGA BIANCO VERMOUTH 18% ABV

This classic producer of vermouth is based on Piedmontese white wines, mostly Moscato, and infused with a wide range of different botanicals, many of them grown in the Occitan Alps nearby. At least 30 botanical infusions are used, including exotic plants like nutmeg and coriander, typical Italian plants like fennel seed, typical Piedmontese plants such as absinthe (locally referred to as Erba Bianca, botanically Artemisia Absinthium), and plants that are exclusively from the Piedmontese Alps such as gentian root (Gentiana Lutea) and gentian flowers (Gentiana Acaulis). In other words, this vermouth has a strong local component, and it is entirely traditional.

BORDIGA EXTRA DRY VERMOUTH 18% ABV

Based on white wine grapes grown in Piedmont, Bordiga Extra Dry Vermouth is a blend of neutral varieties and Moscano. Pale yellow color, the aroma is intense with winy notes, spicy and floral hints. Balanced acidity and a strong and long flavour which evolves from sweet to dry bitter. Bitterness comes from locally grown gentian roots (Gentiana Lutea) and fentian flowers (Gentiana Acaulis).

BORDIGA ROSSO VERMOUTH 18% ABV

The base wine is Piedmontese, mostly white wine with the unique addition of Nebbiolo. Intense amber red color. Fine spices like cinnamon, nutmeg, cloves, Tonka beans and star anise are combined with mint and gentian. Sweet oranges, grapefruit and lemon provide the necessary freshness. Flavours coordinated perfectly yield a lively, tasty vermouth with an intense and spicy aroma.

GIN

BORDIGA OCCITAN GIN 42% ABV

Gin was first made by Bordiga in 1889, and this gin is made from the original Bordiga recipe. Only four main botanical flavors are used, some from the Occitan* Alps, hence the name. The four are Angelica, Juniper, Cardamom and a secret ingredient (with traces of orange and lemon peel). Occitan Gin has traditionally been made exclusively from juniper that grows wild (not cultivated) in the Maritime Alps, near Cuneo, which are some of the highest mountains in Europe. This combination of altitude and maritime influence enriches the essential oils of the juniper berries grown here, giving them a unique flavor; the berries are picked by hand. The different botanicals are macerated separately in triple-distilled grain alcohol, then distilled before being bottled.

MARASCHINO

BORDIGA MARASCHINO CHERRY LIQUEUR 24% ABV

Produced in some form since the founding of the distillery, Bordiga takes a slightly different approach to marasca. They use both Marasca and Amarena cherries - the whole cherry, along with some branches leaves, and vanilla bean. The cherries are from close by in Cuneo, the same province where Bordiga is located. All infusions are done separately and take between 30-35 days. They are then blended and redistilled. This Maraschino is bright and fruity, but also rich and textural, with notes of vanillin, marmalade and toffee that are only fully realized once they reach the mid palate. There is also a distinctly nutty flavor. Enjoy in a variety of classic cocktails, including the Hemingway, Last Word, Daquiri, or Aviation.

AMARO

BORDIGA CHIOT MONTAMARO 18% ABV

This historic recipe – made with infusions, flowers and alpine herbal spirits – is characterized by a small amount of alcohol. At the same time, it releases a strong and distinctive taste you will not forget.

BORDIGA CENTUM HERBIS 28% ABV

In this typical digestive of the Alpine tradition innumerable herbs, flowers and roots blend together, giving to this nectar its specific taste.

BORDIGA AMARO DILEI 30% ABV

Its incredible sweet taste and the balanced alcohol content are the reason why this Bitter is an outstanding product, easily appreciated by all experts.

BORDIGA ST. HUBERTUS 38% ABV

An intense and harmonic product that is balanced both in taste and in its alcoholic structure. This historic recipe knows how to satisfy those who are looking for a top quality Bitter.

APERITIVO

BORDIGA APERITIVO 16% ABV

Based on the original recipe from 1930, Bordiga selects the highest quality ingredients and infuses dozens of alpine herbs, roots, spices, and seeds individually before blending to create their Aperitivo. All infusions done by the producer, not purchased.

BORDIGA BITTER ROSSO 21% ABV

Based on the original recipe from 1930, Bordiga selects the highest quality ingredients and infuses dozens of alpine herbs, roots, spices, and seeds individually before blending to create their Bitter Rosso. No synthetic flavors are used. They no longer use Cochineal for color. Dominant flavors include bitter orange, rhubarb root and gentian.

Badia a Coltibuono

Tuscany, Italy

HISTORY

In 1051 Giovanni Gualberto, a monk, received in donation from a powerful local aristocratic family, the church of San Lorenzo a Coltibuono, with the order to build a monastery to host the monks and a hospice for the pilgrims. A community of Benedictine monks moved in with reformist and polemic ideas against the corruption of the church. In short time they gained a preeminent religious, political, social and economic role. Soon many other donations followed from wealthy aristocrats and poor farmers seeking shelter and protection in those turbulent times. Badia a Coltibuono thus gained a considerable property, that, quite uniquely was not dispersed or split during the following centuries.

The latin name was then: **Badia a Cultus Boni**, meaning alternatively "good cult", "good culture", "good agriculture" or "good harvest". A monk's document from Coltibuono, dated from the 12th century, mentions for the first time ever the word Chianti referring to this area.

Badia a Coltibuono has belonged to the Stucchi Prinetti family. Six generations have succeeded with passion and respect for its extraordinary legacy. The Stucchi are to be considered pioneers of Chianti, having invested in this land since 1846 when their ancestor, Florentine banker Michele Giuntini bought the beautiful property.

Since then the property has flourished. Passed along in the 1930's to Maria Luisa Giuntini, she managed and transformed the property in the 1950's, her son, Piero Stucchi Prinetti, took charge of the property. He began to bottle the best vintages of the estate's Chianti Classico Riserva, selling them both on the domestic and international markets. He was the first to realize the potential of another traditional product of the region: extra virgin olive oil. Piero's wife, Lorenza de' Medici di Ottajano, author of many recipe books, started a cooking school at the estate. Emanuela, Paolo and Roberto Stucchi Prinetti, brothers are today's owners and managers of the property.

ABOUT

For 1,000 years, Coltibuono has been an important farm and its land has been producing excellent wines, oils and grappa. A visit is to experience and understand fine local foods and wines. It means spending a holiday in a villa that was previously a monastery, situated in an expansive landscape, rich in symbolism and at the same time, quiet and intimate. Badia a Coltibuono, a charming destination on the hillside of the Monti del Chianti, is reached via roads filled with special emotions. Easily accessible from Florence, Siena, or Arezzo, it is a place that will leave an unforgettable impression for a memorable holiday.

GRAPPA

Riserva

The distillation of grape pomace has very ancient roots. For the production of the **Badia a Coltibuono Grappa** the pomace after a soft pressing are distilled in an artisanal batch still at low temperature and with indirect steam. This process maintains the delightful aromas of the fresh pomace in the grappa.

The Grappa is produced at the Nannoni distillery in Paganico (Gr), which is where many of the top wine producers in Italy have their Grappa made.

Ageing: over 18 months in 225 liter barrels

No. of bottles produced annually: 8,000

Tasting Notes: The Grappa di Sangiovese is a yellow straw-like color with amber tones. It is elegant and refined on the nose while vanilla and spicy notes are evident due to its long maturation in barrels. It is soft on the palate, and with clean and persistent aftertaste.

MEZCAL

Santiago, Mexico

BIENVENIDOS!

Cruz De Fuego is a message in a bottle, and the message is, "Welcome." Welcome to Mexico, the most generous, most hospitable place on earth — a place where everything is shared. We express this by sharing with you the liquid art that is mezcal.

*The mother-and-son team of
Margarita Blas and
Carlos Mendez Blas...*

make the spirits you will find in our bottles, and they make these spirits in a traditional way, using their five senses. It is one of the things that makes many mezcals and mezcal producers — *maestros* — so unique in the world of spirits.

ALL ALCOHOL BEGINS LIFE AS SUGAR.

The sugar source used to make every other alcohol you drink takes a maximum of six months to reach maturity. The grapes used to make the finest wines, the grains used to make the finest Scotch, the cane used to make the finest rums ... none of these takes more than six months to reach maturity. But the sugars used to make mezcal come from the agave plant, and the fastest-growing agave varietal — the Blue Weber agave — takes a minimum of four years to reach maturity. Four years! And the Tepextate agave that Margarita and Carlos harvest to make their 100% Tepextate Mezcal can take up to 25 years to reach maturity.

The result is a far more complex sugar, with far more aromatic elements. And those complexities reveal themselves in the end flavors of the spirit.

Cruz de Fuego Mezcal Espadín

The aroma of this mezcal is filled with tropical fruit, tamarind and nutmeg with a mineral background. On the palate, flavors of hazelnut, almond, coffee bean and toasted coconut come through.

Cruz de Fuego Mezcal Ensamble

This mezcal is a blend of Espadín and Tobala. There are spicy coconut, ginger and herbaceous aromas. On the palate it is orange marmalad, ginger compote, and pink peppercorn.

Cruz de Fuego Mezcal Madrecuishe

The Madrecuishe offers generous aromas of dried herbs of provence, incense, turned wet soil, freshly cut grass and dried grains and river brush. The rambunctious and bright palate is complimented by asian pear.

Cruz de Fuego Mezcal Cirial

The 100% wild-grown Karwinskii agave is Margarita's favorite mezcal to drink. This flavorful spirit is the perfect mezcal to pair with any of your favorite foods due to its complexity. Notes of cinnamon, fresh lilacs, rose petals and marshmellow.

Cruz de Fuego Mezcal Tobala

This mezcal earned the coveted double gold best in class medal. The aroma is spicy coconut, ginger and herbaceous. On the palate it is orange marmalade, ginger compote, and pink peppercorn.

Cruz de Fuego Mezcal Tepextate

A fresh ocean breeze with tones of quince, star anise, fennel seed and root beer. hints of pine resin and dried chiles. On the first sip a candied guava note spicy, an electric velvety texture and a long finish.

With modern distillation, you're getting exact science. With maestro mezcaleros, you're getting refined artistry.

Darroze

"MARC DARROZE IS A TREASURE HUNTER, ROAMING ARMAGNAC TO FIND EXTRAORDINARY BARRELS FROM THE BEST TERROIRS."

—Jason Wilson, *Vinous Media*, July 2018

Armagnac

The region of Armagnac lays claim to being France's first brandy, having embraced distillation in the 15th century as the process slowly spread from Moorish Spain. Cognac, some 100 miles to the north, got into the game considerably later but quickly capitalized on it due to access to river transport and foreign markets. Deep in the southwest, Armagnac remained in splendid, fractured isolation.

Cognac relies on a double distillation process while traditional Armagnac uses a single distillation process (since the early 1970s, however, double distillation has been permitted in Armagnac and some producers— notably the Cognac firms who have made inroads here—work this way in large part because double distillation cuts down the needed ageing period). The end result is that Cognac is more refined and elegant, requiring less time in oak, while Armagnac is fuller, rougher, deeper and earthier, and requires more time in barrel to smooth out its edges.

Darroze, Bas Armagnac

Country & Region
France, Southwest

Appellation(s)
Armagnac

Producer
Francis and Marc Darroze

Founded
Francis Darroze started the domain in the early 1970s; son Marc joined him in 1983.

Les Grands Assemblages

Eaux de Vie

100% Armagnac

8, 12, 20, 30, 40, 50 & 60 Ans

Until recently, Darroze made only one blended Armagnac: Réserve Spéciale. Today's Grands Assemblages replace that (the 12-year is the corresponding blend) with seven blends, ranging from 8 years to 60 years.

Four additions are permitted in Armagnac: coloring agents such as caramel; wood tannin; sugar; and water. Darroze uses only one of these—water—and only that to lower the alcohol of three specific blends: Grands Assemblages 8-year, 12-year, and 20-year. That is, the youngest three Grands Assemblages.

The 8-year and 12-year, are 100% Ugni Blanc. The 20-year is a blend of Ugni Blanc and Baco. As the blends get older from here, there is more Baco at each step. Ugni Blanc does not require long aging, whereas Baco's rough edges do, and with long aging Baco gains superb complexity.

With all of these blends in this range, the age on the bottle is the age of the youngest spirit of the overall blend.

La Collection Unique - enquire

Eaux de Vie

100% Armagnac

This was the original basis for the business: single vintage, cask-strength, single domain Armagnacs bottled to order. No additives are used for the Collection series, and none of these Armagnacs are ever blended. Each is marked with the month and year of bottling so that the buyer knows exactly how long the spirit rested in barrel. Once bottled, the ageing process stops.

FLOR DEL DESIERTO SOTOL

FLOR DEL DESIERTO is produced at two distilleries in the state of Chihuahua. Flor Del Desierto was started by a small group of friends after one of them, Flor, won a baking competition, using sotol as the special ingredient.

All sotol plants, also known as the desert spoon or sereque, are wild-harvested in the Coyame Desert and mountains of Madera.

Locations: Coyame Desert & Madera, Chihuahua, Mexico
Maestros Sotoleros: Don Gerardo Ruelas & Don Jose, Armando Fernandez Flores

FLOR DEL DESIERTO SOTOL

45% ABV

is made by third-generation producer Gerardo Ruelas in Coyame del Sotol, Chihuahua from the Dasylirion Leiophyllum plant. The sotols are cooked in shallow pits fueled by oak firewood, shredded by axe and knife, open-air fermented in below-ground tanks, and double-distilled in copper pot stills. It is savory with notes of sage smoke and leather along with an underlying salinity and finish of black peppercorn.

FLOR DEL DESIERTO SIERRA

47% ABV

Flor del Desierto Sierra is made by Jose Armando Fernandez Flores, is made from Dasylirion Wheeleri, and is grown and distilled in the Madera region of Chihuahua. The plants are cooked in shallow pits fueled by oak firewood, shredded by axe, knife and finally cowstomping* before being open-air fermented in wood tanks and distilled in clay.

**We're working on a video!*

FLOR DEL DESIERTO CASCABEL

48% ABV

is a spirit distilled from sotol with natural flavor finished in oak barrels. This is considered the sotol form of a "rattlesnake Pechuga." Essentially rattlesnake meat was added to the distillate during the final distillation.

GINRAW

GASTRONOMIC GIN

PRODUCED IN
BARCELONA, SPAIN

A UNIQUE DEVELOPMENT PROCESS

Traditional distillation in copper stills of a careful selection of the best juniper berries.

Fresh **Mediterranean** (lemon, citron, laurel leaves) and **exotic botanicals** (kaffir lime leaves, black cardamom, coriander seeds), are left to macerate between 4 and 10 days.

Using **low temperature** distillation of each individual botanical (25°C/75°F instead of >80°C/180°F), its essence is unaltered while retaining its freshest and most delicate aromas.

GINRAW is the thorough answer to every gourmet's needs. A gastronomical taste that smoothly lingers on the most discerning palates. The nose offers an excellent aromatic intensity. Full-bodied and voluminous on the palate, it is smooth, pleasant and elegant. Conceived to explore all its nuances when drinking it neat or on the rocks, in a G&T, enhancing its freshness, or as the basis for the most creative cocktails.

GINRAW'S HOMETOWN'S GASTRONOMY AND EXCELLENT CULINARY CULTURE HAD TO DEFINE THE ESSENCE OF THIS EXCEPTIONAL GIN. THEY WENT THE EXTRA MILE AND ADDED THE FINEST PINCHES, NOTES AND TWISTS. IT IS DISTILLED WITH THE PUREST INGREDIENTS AT LOW-TEMPERATURE AND BORROWED THE MOST OUTSTANDING TECHNIQUES FROM THE AVANT-GARDE CUISINE USING ROTAVAL®. WITH THIS INNOVATIVE TECHNIQUE, THE BOTANICALS' MOST DELICATE ESSENCE AND FRESHEST AROMAS ARE PRESERVED.

WAS IT NECESSARY TO DISTILL PURE ESSENCES OR A MAITRE PARFUMEUR?

NO, IT WASN'T.

Defining a sublime character and personality for the gin was crucial. After diligently trying infinite variations, the chosen result was unanimous. Ginraw merged a hint of fresh mediterranean notes (lemon, Citron, Laurel) with exotic botanicals (kaffir lime leaves, black cardamom, coriander seeds) which combined in the right proportions with juniper, resulted in an unparalleled flavour and aroma.

FROM BREWING TO DISTILLING

From 1637 to 1914, the miller family Van Breedam ground and distilled grain into jenever on the Molenberg in Blaasveld, Belgium. In 1872, Louis Van Breedam and his sister left the Molenberg to become brewers in Mechelen. The Molenberg is still in the hands of the family and they continue the tradition.

Charles Leclef grew up in the brewery but remained in touch with the Molenberg in Blaasveld, where his uncle lives. After modernizing the brewery, Charles came up with a daring plan. In the Molenberg, he wanted to distill beer to alcohol: whisky. This whisky distillery has become the perfect match between two family traditions, brewing and distilling.

BELGIUM'S FIRST WHISKY DISTILLERY WITH TRADITIONAL SCOTTISH POT STILLS

GOUDEN CAROLUS BELGIAN SINGLE MALT WHISKY

Gouden Carolus Single Malt is a refined whisky distilled from the mash of Gouden Carolus Tripel beer. A first for Belgium are the hand hammered, copper pot stills, in which the pure mash is distilled. The result is a pure and clear distillate.

The ensuing aging in First Fill Bourbon casks followed by a further aging in 'Anker' casks (oak casks reworked by the cooper according to our own specifications) results in a refined whisky with a rich and balanced taste. The subtle fruit aromas are delightfully enhanced by hints of wood and vanilla.

Non chill-filtered

- De Molenberg Distillery, Blaasveld
- 1st Fill Bourbon casks & Anker casks
- 46% alc./vol.
- rich and balanced, fruit, vanilla, crème brûlée

Chichibu Distillery

Saitama Prefecture, Japan

JAPAN'S NEWEST WHISKY DISTILLERY

It started some three centuries ago when Ichiro Akuto's forefathers first began making alcoholic beverages in Saitama Prefecture. His Grandfather began making whisky in the mid 1940's with Hanyu Distillery, whose focus on malt whiskies took off with the Japanese economic boom of the 1980's. However, when the bubble burst in the 1990's, Hanyu, like several other distillers, shuttered their doors. Ichiro saved the old inventory of Hanyu and released the Playing Card Series. Starting slowly in the early 2000's these releases are now the stuff of legend, unicorn whiskies. Ichiro saw that the revival was imminent and in 2008 he built his current distillery in Chichubu. Chichubu distillery where Ichiro, a 21st century whisky maker embraces the heritage and heart of the Scots, balanced by the precision of the Japanese and the shokunin philosophy.

CHICHIBU DISTILLERY

ICHIRO'S MALT AND GRAIN, 46.5% ABV

In Ichiro's words "An all world whisky" the key malt is Ichiro's Malt, with his selection of Scotch, Irish, Canadian and American Whiskey aged in country 3-5 years and aged on sight in Chichibu an additional 1-3 years. Ichiro's Malt and Grain is blended to balance a heart of Japanese whisky complimented by the major whiskies of the world.

Tasting Notes:

Nose: apricot, popcorn toffee, vanilla cream, meyer lemon zest

Palate: Light texture notes of toffee roasted chestnut gingerbread, vanilla and black pepper

Finish: medium-long with honey and black pepper

Il Gusto di Amalfi

Priano, Italy | Amalfi Coast

Valentino Esposito and Mario Anastasio make liqueurs under the label "Il Gusto di Amalfi." Their small facility, which looks like a large kitchen, is in the little town of Praiano, just down the coast from Positano. This area is famous for growing amazing citrus, especially lemons, which are grown by Mario and his family and friends.

FINOCCHIETTO SELVATICO

Wild fennel grows profusely on the Amalfi coast, as it does in California. **The seeds from the tall plants are harvested by hand** in October when the seed-heads are dry, dried, sifted, macerated in pure alcohol for about 40 days, then blended with sugar and bottled. Finocchietto is a great digestivo and craft cocktail ingredient. Drink cold as a digestivo; the liqueur may need to be shaken occasionally to mix in the oils that rise to the top.

LIMONCELLO

Most fine wines and spirits are great because of the way they balance different components, but limoncello is different. Limoncello is a pure infusion of lemon peel, and the quality of the limoncello depends on the quality of the lemons. 'Il Gusto di Amalfi' is a tiny company that takes **organically-grown lemons from the hillsides of the Amalfi Coast near Tramonti**, peels them by hand with potato-peelers in small batches, and macerates them in pure grain alcohol in stainless steel vessels like very small wine tanks. Commercial limoncello is sometimes bitter, a sign that the pith of the fruit has been accidentally included with the zest; hand-peeling avoids this. The variety of lemon is 'Sfusato Amalfitano', and the groves are owned and farmed by Mario Anastasio's friends and family. This limoncello is pure expression of an excellent raw material, and that's it. Drink cold as a digestivo; the liqueur may need to be shaken occasionally to mix in the lemon oils that rise to the top.

MANDARINO

Mandarin oranges of the Marzatico variety, grown organically on the hillsides of the Amalfi coast, picked in season between January and April, peeled by hand, with the peel immediately macerated in pure grain alcohol for 3-4 days. **This is the purest expression of perfect mandarin oranges**; the citrus here in the south of Italy is amazing, very different from what we see generally here in the US, and the quality of the fruit is the whole story with this kind of liqueur. Drink cold as a digestivo; the liqueur may need to be shaken occasionally to mix in the oils that rise to the top.

ISLE OF SKYE

BLENDED SCOTCH WHISKY

"A Superstar whisky that gives us all reason to live!"
- Jim Murray, Whisky Bible, 94 points

Isle of Skye produces premium quality blended scotch whisky with 8 Years Old and 12 years of age, The recognized age of maturity for many malt whiskies.

Few blends offer any age statement. This is because it defines the age of the youngest whisky in the blend, the majority of the malts in Isle of Skye are much older.

Origins in that most widely celebrated of Scottish Islands: Skye, home of the Clan Macleod. An exceptionally smooth and mellow Scotch whisky containing a high proportion of carefully selected Island and Speyside Malts.

Skye or the Isle of Skye (Scottish Gaelic: An t-Eilean Sgitheanach or Eilean a' Cheò) is the largest and most northerly island in the Inner Hebrides of Scotland. The island's peninsulas radiate out from a mountainous centre dominated by the Cuillin hills.

THE STUFF OF DREAMS

"Superstar whisky that gives us all reason to live"

-Jim Murray's Whisky bible

ISLE OF SKYE 8 YEAR WHISKY

Rich in distinctive island and mellow Speyside malts - matured in oak casks for 8 years.

NOSE: Stunningly evocative. Deep peaty tones waft from the glass, like the reek from a crofter's lum. (Okay, okay! I'm guessing it must smell mighty good though.) But there is a lot more beyond: the grains intermingle deliciously with oaky, vanilla notes and something malty and even slightly honeyed. The stuff of dreams.

PALATE: Sweet at first, and remarkably viscous. This seems to be the peat hanging around and there is intense barley sugar and spice. Massively flavoured. This creaminess continues for what seems hours.

FINISH: Remains sweet, spicy and chewy and at the end faintly nutty. The oak returns at the end.

ISLE OF SKYE 12 YEAR WHISKY

Extra matured in oak casks for 12 long years. It contains an exceptionally high proportion of distinctive island and mellow Speyside malts which, after blending, are returned to cask to 'marry' prior to bottling.

NOSE: Ripe, fruity and well balanced. Sherry, dried fruits and a hint of smoke. Water brings out a butter edge. A lot going on.

PALATE: Overall, a little drier than the nose suggests but with excellent, soft, mid-palate weight. Light smoke all the way through.

FINISH: Ripe and soft

MARS SHINSHU

NAGANO PREFECTURE, JAPAN

IWAI

Sandwiched between Japan's soaring Southern Alps and the towering Central Alps, at just over 2,600 feet, Mars Shinshu is Japan's highest whisky distillery. The Hombo family have been distilling for more than a century and they added whisky to their repertoire in 1949. Back then the distillery was located in Kagoshima Prefecture on the southern most island of Kyushu. Until 1984, it was the southernmost whisky made in Japan, which ended with the Hombo clan moving the distillery to the idyllic alpine setting of Miyada village in southern Nagano Prefecture. They chose this site for its cool temps, which slowed maturation, and the plentiful, soft, granite filtered snowmelt fed aquifers.

IWAI WHISKY

Kiichiro Iwai, the name sake for this Mars Whisky, was a silent pioneer of Japan whisky. This whisky is inspired by great whiskies of America. A majority of corn balanced with light malt aged in ex bourbon barrels. Ideal for daily sipping, in a mint julep or an old fashioned.

TASTING NOTES: Sweet with fruit flavors like pear, quince and hints of red fruits and vanilla.

IWAI 45 - ON PREMISE ONLY

The same whisky as Mars Shinshu's classic Blue Label release with an increased ABV of 45%. This additional 5% gives Iwai 45 a sharp and bolder backbone making it perfect for cocktails that shine with a stiffer Japanese spirit base.

TASTING NOTES: Sharp with fruit flavors like pear, quince and hints of red fruits and vanilla.

IWAI TRADITION

This malt driven spirit is truly a reflection of contemporary Japanese whisky. Incredibly balanced, soft and layered. A blending of sherry, bourbon and wine casks with delicate hints of peat make for a harmonious whisky that would make Iwai-san proud.

TASTING NOTES: Ripe Cherry, honey toffee with a beautiful ginger spice.

SPIRITS OF DISCOVERY

J. CARVER DISTILLERY WACONIA MINN.

ABOUT

J. Carver Distillery is located in the farming heart of Carver County, Minnesota. The same spirit that led Minnesota pioneer and namesake Jonathan Carver is found at the heart of their distillery. "Spirits of Discovery" is their guiding passion. They explore and celebrate the bounty of Minnesota grains, fruits, and botanicals as they forge community relationships with farmers and barrel coopers from right down the road. They unapologetically challenge norms and champion new practices to achieve superior spirits. Their local farm-to-glass spirits are produced entirely onsite in the Waconia facility using sustainable practices.

J. Carver Distillery is proud to be putting Minnesota barreled spirits on the map with their award-winning line of bourbons, ryes, and wheat whiskeys, brandies, barrel gin, and specialty spirits. J. Carver offers discriminating clear spirits aficionados four distinctly different gins and two distinct vodkas. They are committed to building partnerships with Minnesota retailers and restaurateurs.

J. Carver Distillery was founded by a multi experienced group and has built a culture around collaboration, fun, and hospitality. They can be found each weekend at the Distillery in their beautiful Cocktail & Tasting Room welcoming guests, pouring samples, creating craft cocktails, and sharing their passion.

JONATHAN CARVER

Jonathan Carver is the namesake for J. Carver Distillery's home county.

The same spirit that led pioneers like Jonathan Carver is found at the heart of the J. Carver distillery. J. Carver Distillery is driven to explore the local spirit-producing bounty of the cold climate fruits and grains of the Minnesota River Valley. Not interested in the production of me-too product, J. Carver is committed to collaboration with local farmers and barrel coopers to develop unique spirits of superior quality by coaxing forth magic from the fruits and grains grown nearby

Waconia

Brickyard Straight Bourbon

Gold Medal “The Fifty Best Bourbons” National Award Winner - BEST OF STATE - Heartland Spirits Fest Chicago

- Honors the historic brickyards of Carver County
- Proof that great whiskey is being made in Minnesota!
- The wheat in this bourbon offers a softer mouth feel than most
- Non-chill filtered
- A wonderful sipper
- Handcrafted entirely on-site in Waconia, Minnesota from local grains
- Aged in charred oak barrels coopered in Minnesota

Age – 36 - 60 months | **Proof** - 84 | **Mash Bill** – 71 percent Minnesota corn, 20 percent Minnesota winter wheat, 9 percent malted barley | **Cocktail** – Old Fashioned, Boulevardier, Bourbon Sour

J. Carver Bourbon Whiskey

- Great bourbon does NOT need to be from Tennessee or Kentucky!
- Sweet, smooth corn is bolstered by spicy, smooth finish of rye
- Non-chill filtered
- Enjoy straight or in cocktails
- Handcrafted entirely on-site in Waconia, Minnesota from local grains
- Aged in charred oak barrels coopered in Minnesota

Age – 24 - 48 months | **Proof** - 80 | **Mash Bill** – 71 percent corn, 20 percent rye, 9 percent malted barley | **Cocktail** – Bourbon Old Fashioned, Mint Julep, and Bourbon Sour

Apple Brandy

Best In Class: 2019 American Craft Spirits, National Awards USA Today Winner, 2nd place, Best Craft Brandy Distillery, National Award

- Classic Calvados-style Apple Brandy
- The first Minnesota distilled apple brandy!
- Local apples in collaboration with Sponsel’s Harvest in Jordan, MN
- Delicious caramel apple nose and a long, smooth finish
- Serve straight or in classic cocktails
- Handcrafted entirely on-site in Waconia, Minnesota from local apples
- Aged in toasted oak barrels coopered in Minnesota

Age – 24 - 36 months | **Proof** - 80 | **Minnesota Apple Varieties** – Golden Chestnut, Haralson, Honey Crisp | **Cocktails** – Old Fashioned, Manhattan, Sidecar, and Spiked Hot Cider

Island View Brandy

USA TODAY Winner, 2nd place, Best Craft Brandy Distillery, National Award

- Classic Cognac-style Brandy
- Minnesota’s first
- A must try for Midwest brandy connoisseurs
- Serve straight or in classic cocktails
- Handcrafted entirely on-site in Waconia, Minnesota in collaboration with local vintners
- Aged in toasted oak barrels coopered in Minnesota

Age – 24 - 48 months | **Proof** - 80 | **Cool Climate Grape Variety** – Vidal Blanc | **Cocktails** – Sidecar, Old Fashioned, Manhattan, Hot Toddy

Cruella Amaro

- An herbal liqueur traditionally enjoyed as an after-dinner digestif
- Traditional Italian bitter-sweet flavor profile with a kiss of sweetness
- Created and produced on-site in Waconia, MN
- Base spirit is J. Carver Rye Whiskey
- 14 botanicals including herbs, barks, and spices
- Whiskey lover's liqueur
- 10 percent residual sugar
- Enjoy neat or to elevate classic cocktails
- Handcrafted entirely on-site in Waconia, Minnesota from local grains

Proof - 70 | Mash Bill – 61 percent Minnesota Rye, 30 percent corn, 9 percent malted barley with 14 botanicals, herbs, and spices including gentian, saffron, hyssop, rose hip, orange, chamomile and galanga | **Cocktails** – Negroni, Manhattan, Whiskey Sour, and Irish Coffee

Sevilla Liqueur

- A touch of sweetness turns this spirit into a delicious liqueur
- Whiskey lover's liqueur
- 5 percent residual sugar
- Enjoy straight or in cocktails
- Handcrafted entirely on-site in Waconia, Minnesota from local grains
- Aged in charred oak barrels coopered in Minnesota

Proof - 80 | Mash Bill – 60 percent winter wheat, 30 percent corn, 10 percent malted barley | **Cocktails** – Old Fashioned, Sidecar, Spiked Hot Cider or Hot Chocolate, Sevilla Chocolate Martini

Everlasting Absinthe Verte

- Minnesota's first Absinthe based on Grappa
- Classic French-style Absinthe Verte
- "Verte" or green from the finishing botanicals after distillation, including J. Carver's signature Minnesota-grown Everlasting Clover
- Smooth, mild, and intriguing with a hint of licorice
- Serve straight or in classic cocktails
- Handcrafted entirely on-site in Waconia, Minnesota in collaboration with three local wineries

Proof - 120 | Base - J. Carver Grappa with Grande wormwood, green anise, fennel seed, everlasting clover and other hand-selected herbs and spices | **Cocktails** – Sazerac, Corpse Reviver II, Absinthe Frappe and other classic absinthe cocktails

J. Carver Wheat Whiskey

- Worthy of being included in every whiskey aficionado's collection
- Rich, robust flavors
- Sophisticated and elegant
- Serve straight with a side of water or in classic cocktails
- Handcrafted entirely on-site in Waconia, Minnesota from local grains
- Aged in charred oak barrels coopered in Minnesota

Aged - 36 - 48 months | Proof - 100 | Mash Bill – 71 percent Minnesota Wheat, 20 percent corn, 9 percent malted barley | **Cocktails** – Old Fashioned, Manhattan, and Whiskey Sour

Grimm Farm Gin

- Gin-lover's gin
- Named after Carver County's legendary farmer Wendelin Grimm
- Stands alone in the inclusion of two botanicals unique to Minnesota – Grimm's everlasting clover and wild rice
- Distilled with 14 botanicals including cardamom, orris root, grains of paradise and traditional juniper
- Made from Lake House Vodka
- Makes any martini or pre-prohibition cocktail stand out
- Handcrafted entirely on-site in Waconia, Minnesota from local grains

Proof - 92 | Mash Bill – 50 percent Minnesota Rye, 30 percent corn, 20 percent winter wheat with botanicals including wild rice, everlasting clover, bitter orange, lemon, cardamom, orris root, rose hip, and grains of paradise | **Cocktails** – Bees Knees, Gin and Tonic "Grimm and Tonic" and Martinis

J. Carver Gin

- For many, this is "the first gin I ever liked" and designed that way!
- 9 beautifully balanced botanicals, including traditional juniper
- Citrus notes, coriander and hints of anise
- Creamy viscosity
- Best enjoyed neat or in classic cocktails
- Very versatile
- Smooth, creamy mouth feel
- Handcrafted from J. Carver Vodka entirely on-site in Waconia, Minnesota

Proof - 80 | Mash Bill – 100 percent winter wheat with botanicals including sweet orange, bitter orange, lemon, cinnamon, cardamom, star anise. | **Cocktails** – Gimlet, Tom Collins, Mojito, and Gin Mule.

J. Carver Barrel Gin

Gold Medal "The Fifty Best Gins" National Award

- Gold hue from barrel aging
- "Whiskey-lover's gin"
- The darling of top mixologists statewide
- 14 botanicals including orange and cinnamon
- Adds something unique and special to gin and whiskey-based cocktails
- Begs to be sipped neat or on ice
- Handcrafted entirely on-site in Waconia, Minnesota from local grains
- Finished in new charred oak barrels coopered in Minnesota

Proof - 96 | Mash Bill – 40 percent Minnesota Rye, 40 percent corn, 20 percent winter wheat with botanicals including wild rice, everlasting clover, bitter orange, sweet orange, lemon, cardamom, angelica root, orris root, rose hip, cinnamon, and grains of paradise. | **Cocktails** – Old Fashioned, Bees Knees, Mule, Vesper, and Barrel Gin Bloody Mary

J. Carver Steinhager-Style Gin

- A classic German-style gin
- Developed in collaboration with the landmark "Black Forest Inn"
- Sweet, soft and straightforward
- Popular with Minnesotans of German heritage
- Traditionally served well-chilled as a shot, Prost!
- Handcrafted entirely on-site in Waconia, Minnesota from local grains

Proof - 80 | Mash Bill – 100 percent Minnesota red winter wheat with juniper

J. Carver Marquette Grappa

Truly the first all-Minnesota Grappa, made from cool climate grapes developed at the University of Minnesota, grown and pressed at the three local Waconia wineries - Parley Lake Winery, Schram Vineyard, and Sovereign Estate Winery! Pomace from the wine making at these wineries is fermented and distilled in a 140-liter pot still, the result is a soft, approachable, brandy-like spirit with a pleasant aroma! Minnesota Grappa! Whoda thunk?

Proof - 100

J. Carver Sangiovese Grappa

Made from grapes hand-selected by Sovereign Estate, J. Carver Grappa is distilled using Syrah pomace from the wine making process. The aroma has hints of pepper and spicy undertones with ripe, black fruit on the palate. A perfect digestif after a meal.

Proof - 100

J. Carver Rye Whiskey

- Standout pre-prohibition rye cocktails require a bold, standout whiskey!
- Offers the spicy robust character of rye with smooth finish softened by corn
- Non-chill filtered
- Robust, tasty, flavorful rye
- Cowboys and classic cocktails beg for this rye!
- Handcrafted entirely on-site in Waconia, Minnesota from local grains
- Aged in charred oak barrels coopered in Minnesota

Age – 24 - 48 months | **Proof** - 92 | **Mash Bill** – 61 percent Minnesota Rye, 30 percent corn, 9 percent malted barley | **Cocktails** – Rye Manhattan, Sazerac, Whiskey Sour, Old Fashioned, Kentucky Buck

Hunt Club Double Barrel Rye

- Limited release whiskey
- A must-try for the rye connoisseur
- Double barreled: first aged two years in charred MN oak barrels, the spicy spirit is then finished in our seasoned J. Carver Apple Brandy barrels for another year
- The result is an intriguing mix of pepper from the rye balanced by subtle notes of caramel and vanilla with a silky-smooth finish from the apple brandy.
- Best served neat
- Handcrafted entirely on-site in Waconia, Minnesota from local grains
- Aged in charred oak barrels coopered in Minnesota

Age – Over two years in MN oak, then barrel-rested one year | **Proof** – 80 | **Mash Bill** – 61 percent Minnesota rye, 30 percent Minnesota corn, 9 percent malted barley

Runestone Straight Rye

GOLD MEDAL WINNER “Fifty Best Ryes” National Award

- Named for the famous Kensington, MN Runestone
- Created for whiskey aficionados and hardcore rye lovers
- 100 percent MN rye with an amazing smooth balance of sweetness and spice
- Non-chill filtered
- Irish Whiskey and Highland & Speyside Scotch-lover’s Whisky
- Great for sipping and sophisticated cocktails
- Handcrafted entirely on-site in Waconia, Minnesota from local grains
- Aged in charred oak barrels coopered in Minnesota

Age – 36 - 48 months old | **Proof** - 80 | **Mash Bill** – 86 percent Minnesota rye, 14 percent malted rye | **Cocktails** – Sazerac, Old Fashioned, Manhattan

J. Carver Vodka

Double Gold Medal: “The Fifty Best Vodkas” National Award

- Not a traditional vodka
- A sip yields hints of butterscotch on the nose
- Warm, rich texture and viscosity
- Always smooth, never burns
- Single pass distillation
- Sweet, creamy, caramel aroma
- Handcrafted entirely on-site in Waconia, Minnesota from local grains

Proof - 80 | **Mash Bill** – 100 percent winter wheat | **Cocktails** – Moscow Mule, Vodka Collins, Salty Dog

Lake House Vodka

Liquor.com: “The Best Vodka at Any Price”

Gold Medal: “The Fifty Best Vodkas” National Award

- One of the few multi-grain vodkas in production
- Rye adds robust notes, corn adds sweetness, winter wheat adds creaminess and mouthfeel
- Pleasing to the discriminating vodka connoisseur
- Single pass distillation
- Smooth, complex, soft, and sweet
- Martini-lover’s vodka
- Handcrafted entirely on-site in Waconia, Minnesota from local grains

Proof - 84 | **Mash Bill** – 50 percent Minnesota Rye, 30 percent corn, 20 percent winter wheat | **Cocktails** – Martini, Cosmopolitan, Bloody Mary, Vesper

CASK STRENGTH

J. Carver Barrel Gin Cask Strength Whiskey

Color: Gold

Aroma: Lemon, orange, spice cake, nutmeg, cardamom, vanilla, chocolate, anise, orange blossom honey, cinnamon, honey butter.

Mouth-Feel: Creamy, elegant for a Cask Strength Whiskey

Flavor: An amazing balance of sweetness and spice. Rich with intriguing flavors of toffee, caramel, cocoa nibs, burnt sugar, Cola, toasted pecans, dried cherries, plums, and dark fruits.

Finish: Long, elegant finish

COGNAC, FRANCE

COGNAC REGIONS

THE PASQUET COGNAC VINEYARD has been family owned since 1730. Jean-Luc Pasquet and his wife, Marie-Françoise, had been growing fruit conventionally on their 7 hectare estate until 1995 when they began to explore organic winemaking. In 1998, they were granted "Agriculture Biologique" certification. JLP is now spear-headed by Jean-Luc's son, Jean who has apprenticed under his father since childhood.

ORGANIC COGNAC

It was in the 1970s that vine growers had the idea to grow vine plants on land free of pesticides. Indeed, the use of pesticides causes many damages to nature and degrades the fertility of the earth very quickly.

Nowadays, more than 600 hectares of Charente vines are exclusively dedicated to cognac making! The success of this organic cognac was quickly felt. The quality is incomparable and of such purity. The aromas of an organic cognac are really a delight!

"JLP Cognacs are crafted from grapes grown according to our philosophy, putting terroir and taste first. The natural, unadulterated fruit, flower, and spice aromas, which are contained in this elixir of distilled wine; aged in French oak barrels, are the essence of our vineyards and our knowledge. Sharing this bounty with you is our greatest joy."

Dry white wine, high in acidity, distilled twice "on lees" in a charente pot still according to the traditional methods of the region. The blend includes two (exclusively organic) eau-de-vie aged **4 and 5 years** in Limousine oak barrels, **20%** of which are new. Bottled on the property, Pasquet cognac is never chill filtered.

TASTING NOTES

Pale gold with a pale straw hue. Vibrant, fresh aromas of dried flowers, ripe pear, ripe apricot and orange zest. A very soft palate entry builds to a full, round and rich mouth feel, delivering bright, fresh flavors of ripe stone fruits, dried figs, honey, cloves and cinnamon. Very gentle spirit warmth. Excellent balance. Long, dry aftertaste of dried fruits, cedar wood and cinnamon.

40% ABV

Dry white wine, high in acidity, distilled twice "on lees" in a 20hl pot still according to the traditional methods of the region. The blend includes two (exclusively organic) eau-de-vie aged **7 and 8 years** in Limousine oak barrels. **30%** of which are new. Bottled on the property, Pasquet cognac is never chill filtered.

TASTING NOTES

This cognac exhibits a bright color with a pale gold hue. Moderate aromas reveal scents of ripe apricot, dried fig, cedar-wood & vanilla with a trace of dark chocolate lingering beneath. Very fresh and clean. A silky, soft palate entry delivers a supple, luscious mouth feel offering semi-sweet flavors of stewed apricot, vanilla and spice. Pure, smooth, gently warming spirit. Excellent balance. Finishes dry with a long, subtle cedary oak, dried fig and creme brulée fade.

40% ABV

Dry white wine, high in acidity, distilled twice "on lees" in a charente pot still according to the traditional methods of the region. The blend includes two (exclusively organic) eau-de-vie aged **10 and 11 years** in Limousine oak barrels, **35%** of which are new. Bottled on the property, Pasquet cognac is never chill filtered and consequently no sugars are added.

TASTING NOTES

Generous aroma offers up attractive scents of fig, cinnamon and vanilla. Second pass finds raisins, hints of cedar and dried flowers. The bouquet follows through to an elegant, middle weighted profile of dried fig with hints of nougat carried by a pantry of sweet spices through to the clean, dry aftertaste. A lovely cognac in the lighter, drier and balanced style.

40% ABV

JLP

JEAN-LUC PASQUET

PINEAU DES CHARENTES

Cognac is blended with fresh grape juice within hours of the grapes being pressed. The grapes must be very ripe in order to obtain juice that is rich in natural sugars. Pineau des Charentes is a blend of grape juice and eau de vie (which must be at least one year old) married and aged together in oak for at least **18 months**. The Pineau must have an alcohol content of between 16.5% and 22%. JLP's Pineau is 18% ABV. Production is strictly controlled to ensure high quality through proper blending and aging.

TASTING NOTES

White-gold in color, the nose of this Pineau is lively and complex, with aromas of dried fruit; notes of pear-flambé and honey persist. It is wonderfully balanced on the palate, pear and honey flavors blossoming from the start. The finish shines with invigorating, complex tannins and hints of candied grapefruit.

18% ABV

MARIE FRAMBOISE

Marie Framboise is a blend of freshly pressed grape juice and eau de vie that has had fresh, organic red raspberries macerated in it for 3 months. Made very much in the style of the Pineau des Charentes (aged in oak for at least **18 months**) the beautifully balanced Marie Framboise is the very essence of raspberry flavor with notes of grapes and cognac all beautifully harmonized.

TASTING NOTES

Dazzling ruby-red in color with a wonderfully complex nose of raspberries and grapes, Marie Framboise is a spirited, refreshing experience on the palate. The attack is structured and flamboyant, combining natural sugars, organic berries and alcohol. The alcohol is integrated beautifully and tamed by the natural sugar of the fruit.

16% ABV

ABOUT

Kilchoman distillery sits nestled amongst the farm buildings of Rockside Farm sheltered beneath the Creag Mhor headland on the northwest coast of Islay. Famous as Islay's Farm Distillery, the Kilchoman barley fields stretch west to the shores of Machir Bay and the Atlantic Ocean. Kilchoman is unique in many ways, most notably for our 100% Islay range, Scotland's only single malt produced from barley both grown and malted on Islay.

Established in 2005, Kilchoman is true to the Islay's rich farm distilling heritage, using local peat cut in the traditional way, slowly distilling by hand, maturing in traditional dunnage warehouses and bottling on site without colouring or chill-filtration.

"When we first started work at Kilchoman, the ambition was to build a distillery that was true to the traditions of distilling on Islay - small farm distilleries where every part of the whisky-making process was by hand on site. We are very proud to be Scotland's only Farm Distillery"

- ANTHONY WILLS

KILCHOMAN FOUNDER & MANAGING DIRECTOR

..... FROM BARLEY TO BOTTLE

HARVEST

The parish of Kilchoman is home to some of Islay's most fertile ground. It is here, in the fields surrounding the distillery, where 200 tons of barley is grown each year. Planting in spring once Islay's 50,000 geese have migrated, the farm team cares for the barley over the summer months before harvesting in early September. Harvest time represents the start of the whisky-making process which sees the Kilchoman grown barley malted, distilled, matured and bottled at the distillery, eventually becoming Islay's only Single Farm Single Malt Scotch Whisky over 1,130 days later.

KILCHOMAN LOCH GORM - [enquire](#)

Named after a famously dark and peaty loch overlooked by the distillery, Loch Gorm is a sherry cask single malt matured exclusively in oloroso casks, extracting the rich spicy character of the European oak as it ages in our Islay warehouses. It is a vatting of twenty oloroso sherry butts from 2006, 2007, 2008, 2009 and 2011, the first edition to contain 12 and 13-year-old casks.

KILCHOMAN 11 YEAR SINGLE CASK - [enquire](#)

The ImpEx Cask Evolution Series aims to demonstrate the importance of quality casks in the development of a fantastic Scotch whisky. These single casks are carefully selected by Kilchoman Distillery and are exclusively available in the US. Each cask is specifically chosen to exhibit the diversity of character achieved by using different types of cask to mature Kilchoman single malt.

The 11 year has aromas of floral sweetness, caramel, vanilla and citrus. On the palate, it is balanced and complex with fresh fruit, butterscotch, lemon tart and cinnamon with hints of soft peat smoke. There is a long and clean citrus finish with waves of Islay peat smoke.

KILCHOMAN SANAIG

Sanaig, named after an inlet on Islay's rugged Atlantic coast, is a vatting of Kilchoman matured in both sherry and bourbon barrels. This sherry cask scotch whisky is matured in a high proportion of oloroso barrels, imparting a balance of dried fruits, dark chocolate and rich peat smoke into the spirit.

KYOTO DISTILLERY

Kyoto Prefecture, Japan

Kyoto Distillery is Japan's first dedicated artisanal gin distillery and ONLY distillery in Kyoto. Located in the southern part of the city, the distillery sources their water from the famed Fushimi region which is tremendously respected for their delicate and delicious brewing water.

The aim is simple: to produce the best dry gin, utilizing local botanicals wherever possible. Every element of the final product should be completely authentic, from the local FRESH sourcing of the ingredients through to the design and craftsmanship of the packaging.

6 GROUPS OF BOTANICAL

- 1. FOUNDATION (Juniper, Orris, Hinoki)**
Juniper, Oris, Hinoki are used for the botanical which is the base of the beauty of the season. It occupies half of the whole and forms a skeleton of taste.
- 2. CITRUS (Yuzu, Lemon)**
We use Yuzu known as citrus unique to Japan, expressing the unique character unique to "Seasonal beauty" not found in other gin.
- 3. RIN / HERBAL (Japanese Pepper, Tree Bud) Arima,** which releases aromatic fragrance in Oriental, shows its presence firmly in top note and after, tightens flavor.

- 4. YOSHI / FRUITY & FLORAL (Sasa, Red Shiso)**
Bamboo and Red Shiso add fruity and floral essence to the whole. Although it is inconspicuous, it is unsatisfactory unless it is on the spot, it is such a name like a supporting character.
- 5. SPICE (Ginger)**
While the pepper works against aroma, ginger tightens the flavor. Juicy and hot spicy feel at the moment you bring it to your mouth make your taste even more complicated.
- 6. TEA (Gyokuro)**
The gyokuro of a long-established tea room in Kyoto is also used. It gives a fragrance that is like Japan and a faint sweetness and brings all botanicals together in an elegant manner.

KI NO BI

Kyoto Dry Gin - 45.7%

KI NO BI ("The Beauty of the Seasons") is inspired by tradition and is distilled, blended and bottled in Kyoto. The gin is made in a recognisable dry style but with a distinct Japanese accent.

KI NO BI Kyoto Dry Gin is created with Japanese botanicals such as yellow yuzu from the north of Kyoto Prefecture, hinoki wood chips (Japanese cypress), bamboo, gyokuro tea from the Uji region and green sanshō (Japanese peppercorn) berries.

Bottled at 45.7% ABV, KI NO BI uses a rice spirit base and peerless water sourced in the famous sake-brewing district, Fushimi.

TASTING NOTES: a gin that speaks of its place of birth. As clear as the air in the sacred mountains of Kyoto. A fresh aroma of yuzu, and a thread of sansho that lingers like a morning mist in a bamboo forest. The juniper complements and showcases the Japanese botanicals. Ginger root gives a slightly warming, spicy finish.

KI NO TOU - enquire

Kyoto Old Tom Gin - 47%

The 'Old Tom' style of gin dates back to the 18th century when the addition of sugar gave balance to some of the harsher spirits of that time. Uncertainty surrounds the origins of the name but the image of a tomcat was common on barrels and pub signs; the style lies somewhere between Dutch Genever and London Dry.

Based on an exclusive bottling – believed to be Japan's first Old Tom – created by The Kyoto Distillery for the Tokyo International Bar Show, KI NO TOU takes our classic KI NO BI Kyoto Dry Gin and sweetens it post-distillation with kokutou (literally 'black sugar') from the Okinawan island of Yonaguni. Dating back to the 17th century, kokutou is made in such a way as to retain higher mineral content than other sugars; as well as sweetness it adds complexity.

KI NO TOU is a Japanese gin created, blended and bottled at the dedicated artisanal distillery in Kyoto. The label design features two kanji characters, one meaning 'island' and the other 'sugar', and has been produced together with KIRA KARACHO, part of the KARACHO karakami atelier founded in Kyoto in 1624.

TASTING NOTES: Notes of Yuzu, Ginger and Sansho pepper with aromas of red shiso and bamboo leaves. The base of juniper berry, orris and hinoki bring a mild sweetness to the palate.

KI NO BI "SEI" - enquire

Kyoto Dry Gin - 54.5%

KI NO BI SEI is the "high-proof bottling" of Kyoto.

KI NO BI SEI is made with the same intricate production method as the original KI NO BI; using 11 botanicals distilled in six distinct flavour categories. The final blend has been recalibrated by our distilling team to bring out the best of each botanical at the higher proof. Although often confused with 100 Proof or 57.1% ABV, this bottling is at the traditional British Navy Strength of 54.5% ABV.

In contrast to the original KI NO BI which has delicate and gentle profile, KI NO BI SEI has a thicker mouthfeel and full-bodied flavour, which pairs well in cocktails.

TASTING NOTES: High proof allows the distinct taste of KI NO BI's flavour profile to prevail. It's punchy at first on palate, still has the cleanness and harmony that KI NO BI originally has. All essences of flavours are enhanced in good balance. A perfect gin for cocktails.

Mars Whisky KOMAGATAKE

Located between Japan's soaring Southern Alps and the towering Central Alps, at just over 2,600 feet, Mars Shinshu is Japan's highest whisky distillery. The Hombo family have been distilling for more than a century and added whisky to their repertoire in 1949. At that time the distillery was located in the Tsunuki region of Kagoshima Prefecture on the southern-most island of Kyushu.

Until 1984, it was the southernmost whisky made in Japan, which ended when the Hombo clan moved the distillery to the idyllic alpine setting of Miyada village in southern Nagano Prefecture, Central Japan. They chose this site for its cool temperature, which slowed maturation, and the plentiful soft granite filtered snowmelt fed aquifers. A beautiful choice.

In 2016, Hombo Shuzo reopened and introduced new pot stills to their first distillery location in Kagoshima now known as the Mars Tsunuki Distillery, once again Japan's southernmost distillery. They also built an aging facility on a tiny island known as Yakushima, a National World Heritage site, where they now age spirits from both Shinshu and Tsunuki distilleries.

By pushing the boundaries of Japanese whisky production, Mars is widely becoming known as Japan's most prolific craft whisky distillery.

Komagatake Double Cellars 2019 Single Malt *- enquire*

Another playful expression in the evolution of Mars Whisky. First distilled at Japan's highest elevation distillery, Mars Shinshu in Nagano, with 50% of the distillate then transferred to the Mars Yakushima Island Aging Cellar off the coast of southern Japan. Yakushima Island is a World Heritage Site known for 1000 year old cedar trees, untouched nature and rain 300+ days a year. After 3 years of aging the whiskies are married again in Nagano to create this fascinating Double Distillery release.

TASTING NOTES

Apricot & bitter chocolate on the nose with hints of citrus, salt & spice on the palate. Finishes with sweet vanilla.

ABV: 47.0% | **SIZE:** 750ml | **STYLE:** SINGLE MALT | **BARRELS:** BOURBON, SHERRY CASK, AMERICAN WHITE OAK | **SPECIAL NOTE:** 3659 Bottle Single Release

Komagatake Tsunuki Aging 2019 Single Malt *- enquire*

A playful expression in the evolution of Mars Whisky. First distilled at Japan's highest elevation distillery, Mars Shinshu in Nagano, the distillate is then transferred to the Mars Tsunuki Distillery in the southern prefecture of Kagoshima to be aged in their sea level rack house.

TASTING NOTES

Herbaceous with gorgeous soft vanilla pod notes

ABV: 57.0% | **SIZE:** 750ml | **STYLE:** SINGLE MALT | **BARRELS:** BOURBON | **SPECIAL NOTE:** 1462 Bottle Single Release

Komagatake Yakushima Aging 2019 Single Malt *- enquire*

Another playful expression in the evolution of Mars Whisky. First distilled at Japan's highest elevation distillery, Mars Shinshu in Nagano, the distillate is then transferred to southern Japan's Yakushima Island, a World Heritage Site known for 1,000 year old cedar trees, untouched nature and rain 300+ days a year.

TASTING NOTES

Notes of honey & dried apricot on the nose evolving into even more honey and a peppery spice on the long, lingering finish.

ABV: 58.0% | **SIZE:** 750ml | **STYLE:** SINGLE MALT | **BARRELS:** SHERRY CASK | **SPECIAL NOTE:** 1140 Bottle Single Release

LUSTAU

JEREZ, SPAIN

Lustau is considered the global standard-bearer in the production of top quality Sherries, Brandies, and Vermouths. Lustau's commitment to combining tradition, innovation and the pursuit of higher quality wines has defined Lustau from its humble beginnings.

The Solera Y Criaderas System is the common denominator in the production of wines and Brandies from Jerez. This system, coupled with the dedication of the oenologist, imbues Lustau's products with consistent quality and inimitable character.

WINERY

Cathedral-style wineries with vaulted ceilings and immaculate "albero" floors that stabilize the temperature and humidity to maintain the unique microclimate required by Sherry ageing.

Lustau is the only winery that produces wines in each of the three cities in the Sherry triangle: Jerez de la Frontera, El Puerto de Santa María and Sanlúcar de Barrameda.

The primary wine making facilities, are located in Jerez de la Frontera. The Los Arcos winery complex, built in the 19th century, consists of six aging cellars that date from different periods.

CELLAR MASTER

Sergio Martínez

Sergio Martínez knows the wines and the soleras that Lustau has built up perfectly. For over 10 years he has done the daily rounds alongside Manuel Lozano, chalk and venencia in hand, along the aisles which make up the Lustau solera ageing casks.

Over 10 years analysing, understanding and caring for the jewels and the secrets which are hidden between the walls of this bodega.

LUSTAU

LUSTAU SHERRIES

SOLERA FAMILIAR

Amantillado Golden La Plaza Vieja Medium Golden

Medium dry with honey and nut aromas lead to a simple and balanced palate. Sweet flavors of caramel and sugar-coated pecan on the mid-palate. On the finish, a mix of mushroom, pecan, coffee and toffee flavors.

Deluxe Cream Capataz Andres

Both components of this wine, Oloroso and Pedro Ximénez, are aged in their own soleras. The result is a mahogany-hued wine with smoky aromas of dried fruit. Smooth and sweet on the palate, with a delicate crisp finish.

Dry Amontillado Los Arcos

It is a classic Amontillado, with a touch of sweetness, well-balanced and prominent in both character and age. Amber in colour with golden hues. Aromas of ripened fruit, with hints of wood and raisins.
- 93 points on the Parker scale

Dry Oloroso Don Nuño

Golden-hued Oloroso with penetrating woody aromas. Hints of dark chocolate, walnuts and roasted chestnuts. Very persistent on the palate, tempered with a slight acidity.
- 94 points on the Parker scale

Fino Jarana

The quintessential Fino from Jerez: dry, light and pungent, with an aroma of almonds and mildly acidic on the palate.
- 90 points on the Parker scale

Fino Puerto

This Fino is aged in El Puerto de Santa María for an average of 5 years. It is a smooth, light, dry wine, with aromatic hints of the sea and Baker's yeast and a nutty flavor on the palate.
- 91 points on the Parker scale

Light Manzanilla Papirosa

Produced in Sanlúcar de Barrameda. Extraordinarily dry and light. Pungent and fresh on the palate, with refreshing crispness.
- 92 points on the Parker scale.
The highest score ever awarded to a Manzanilla.

Moscatel Emilin

Produced with 100% muscatel grapes from the Las Cruces vineyard in Chipiona and aged in American oak barrels. Very deep colour. Intense floral bouquet. Reminiscent of figs, raisins and walnuts. Full-bodied flavour that lingers on the palate. Very sweet though balanced owing to its natural acidity. This muscatel is one of Lustau's winningest wines.
- 96 points on the Parker Scale

Palo Cortado Península

Unites the fragrant refinement of an Amontillado with the full-bodied flavor of an Oloroso. Nutty overtones, with hints of vanilla, coffee and dark chocolate.
- 96 points on the Parker Scale

Pedro Ximénez San Emilio

Produced with 100% Pedro Ximénez grapes. The flavour is sweet and fruity, smooth, velvety and balanced, with a long lingering finish. Winner of the Great Gold Medal at the Concours Mondial du Bruxelles.

Rare Amontillado Escuadrilla

Bright amber colour with golden hints. This complex Amontillado shows intense notes of hazelnuts, caramel and sea salt together with smoky wood aromas, resulting from years of ageing in the bodegas of Jerez. Dry and elegant on the palate, powerful, with a long spicy aftertaste.
- 94 points on the Parker scale. An outstanding wine.

Rare Cream Superior

A deep shade of mahogany, smooth, sweet and velvety, complex and persistent on the palate; its crisp finish contrasts and balances its sweetness.
- 90 points on the Parker Scale

SPECIALTIES RANGE

East India Solera

One of the great icons of Lustau. Its aging process mimics that of some 17th century wines developed during transatlantic journeys to distant Spanish colonies. Dark mahogany color with bronze hues. Concentrated aromas of ripe fruit, mocha, cacao and toffee. Very complex on the palate, with clean acidity. Taste of raisins, nuts and candied orange. To achieve this, after aging separately in their own soleras, the Oloroso and Pedro Ximénez that comprise it, are combined and undergo a second aging process in a solera of 45 barrels at the Sacristía de Bodegas Lustau, with its elevated humidity and temperatures that replicate the climatic conditions that the wines would have experienced on their journeys.
- 96 points on the Parker scale

VERMUT

WHITE

A PERFECT BLEND OF TWO WINES: A DRY, MINERAL AND CRISP FINO SHERRY AND A SWEET AND FLORAL MOSCATEL WINE. INTENSE AND BRIGHT YELLOW COLOR WITH GOLDEN REFLECTIONS. ON THE NOSE IT SHOWS FLORAL, CITRUSY AND HERBACEOUS NOTES OVER A YEASTY AND MINERAL BASE. THE FINISH IS BITTER AND CLEAN WITH A LONG, NUTTY AND REFRESHING AFTERTASTE.

ROSÉ

A PERFECT BLEND OF THREE WINES: A DRY AND CRISP FINO SHERRY, A FLORAL AND SWEET MOSCATEL AND A LIVELY AND FRUITY TINTILLA DE ROTA WINE. ON THE PALATE, THE SPICED AND HERBACEOUS NOTES ARE FOLLOWED BY A COMFORTING SWEETNESS THAT LEAVES A DELICIOUS SILKY SENSATION.

RED

MAHOGANY IN COLOR WITH REDDISH GLINTS. SWEET AROMAS OF RIPE FRUIT ARE LACED WITH CITRIC AND HERBAL NOTES OVER A SMOKY WOOD BACKGROUND. IN THE PALATE IT IS VELVETY, FLAVORFUL AND BALANCED. BITTER FINISH DELICATELY ACCOMPANIED BY A DISTINCTIVE NUTTY AFTERTASTE.

BODEGAS LUSTAU GETS BACK THE LOCAL TRADITION OF PRODUCING VERMOUTH WITH A SHERRY BASE.

PRODUCED FROM A CAREFUL SELECTION OF LUSTAU SHERRY WINES, BOTANICALS AND FRAGRANT PLANTS.

Brandy De Jerez

Brandy de Jerez **SOLERA RESERVA**

Aged for an average of 3 years in the Solera and Criadera maturing system. Aged in casks which have previously contained fine Amontillado Sherries. Very attractive amber tones with greenish reflections. Nutty and vanilla aromas with a mellow, although intense palate.

Brandy de Jerez **SOLERA GRAN RESERVA** - enquire

10 years average aging in the Solera and Criadera maturing system. A selection of old casks which previously contained Amontillado and Oloroso Sherry were used to mature this Brandy. Intense copper color with dark golden tones. Walnut and nougat, with toffee background and some sweet spices in the nose. Warm and smooth with a very complex finish.

Brandy de Jerez **SOLERA GRAN RESERVA - Finest Selection** - enquire

Aged for more than 15 years. It is the result of a mixture of different Jerez Brandies, aged in barrels that contained mature Oloroso and Pedro Ximénez sherries. Mahogany color with golden hues. Chocolate and spice aromas, with a hint of nuts. An intense and nutty flavour, very persistent and complex on the palate.

MARCHESI DI GRÉSY

PIEDMONT, ITALY

With about 45 hectares of vineyards spread among the hills of the Langhe and Monferrato, the Tenute Cisa Asinari of the Marquis of Grésy are a historic Piedmontese winemaking reality, whose roots date back to the late 18th century. Producing always elegant wines, both for daily consumption and for the great celebration.

1650

The Grésy family acquires the land of Monte Arigaldo in Treiso.

1797

The Marquis De Abbateona donates the possessions of Martinenga to the Grésy family.

1899

Carlo di Grésy has Villa Giulia built on the hill of Monte Aribaldo after he marries Giulia Pellizzari.

1973

Alberto di Grésy begins the vinification on his own of all the estates.

2013

Alessandro and Ludovica di Grésy begin their adventure in the Tenute Cisa Asinari of the Marquis of Grésy working together with his father Alberto.

The company

The estates are made up of four wineries located in the Langhe and in the Monferrato area. The head office is Martinenga, an extraordinary venerable amphitheater, in the heart of Barbaresco DOCG. Martinenga is considered by many to be the best vineyard in the area and is a winemaking monopoly for the Grésy family since 1797.

The philosophy

Passion and regard for tradition, nature and variety are well respected philosophies of the Grésy family. They focus on wines of the highest quality that do not exceed in power, but surprise for their defining elegance. They want to be able to bottle the great class of the vineyard, with all the nuances of the terrior. Their work is concentrated largely on the care of the vineyard. The vinification does not change the work carried out in the vineyard, but completes it, enhancing the natural predisposition and identity of the grapes.

grappa

With the aim of further enhancing its production, in 1982 the estates began to confer the pomace of Dolcetto, Nebbiolo, Moscato, Chardonnay and Sauvignon to the Bricco Albano Distillery in Barbaresco.

The copper distillation plant has been designed and built to produce high quality levels: to distill with pressure values at lower than atmospheric ones, obtaining the grappa at significantly lower temperatures: this simply means not to "smoke" part of the esters and precious aromas that normally evaporate during distillation.

The finished product is collected after processing in special compartments that effectively separate the productions coming from "crus"

MARS WHISKY

Located between Japan's soaring Southern Alps and the towering Central Alps, at just over 2,600 feet, Mars Shinshu is Japan's highest whisky distillery. The Hombo family have been distilling for more than a century and added whisky to their repertoire in 1949. At that time the distillery was located in the Tsunuki region of Kagoshima Prefecture on the southern-most island of Kyushu.

Until 1984, it was the southernmost whisky made in Japan, which ended when the Hombo clan moved the distillery to the idyllic alpine setting of Miyada village in southern Nagano Prefecture, Central Japan. They chose this site for its cool temperature, which slowed maturation, and the plentiful soft granite filtered snowmelt fed aquifers. A beautiful choice.

In 2016, Hombo Shuzo reopened and introduced new pot stills to their first distillery location in Kagoshima now known as the *Mars Tsunuki Distillery*, once again Japan's southernmost distillery. They also built an aging facility on a tiny island known as Yakushima, a National World Heritage site, where they now age spirits from both Shinshu and Tsunuki distilleries.

The Lucky Cat - May - enquire

TYPE: BLEND **ABV:** 40.0%

NOTES: 4th in the series, finished in Umeshu Japanese plum wine casks.

The 4th release in the unique Lucky Cat series from Mars Shinshu Distillery. This special blend is created by the 4th generation owner himself, Kazuto Hombo, in honor of his beloved cats. A combination of Mars Shinshu distillate plus a touch of imported Scotch are blended and then finished in Japanese plum wine (Umeshu) casks. Please note that the addition of imported Scotch is not for economic reasons but rather a flavor profile choice by Mr. Hombo.

G.E. Massenez

Alsace, France

A Napoleonic statute...

The birth of Distillerie Massenez goes back to the 1870s when Jean-Baptiste Massenez started as "home distiller" in Urbeis, in the Vallée de Villé. Jean-Baptiste Massenez unknowingly opened the way forward for his descendants who would inherit the status of home distiller: his son, Eugene Massenez inherited not only the privilege but also his father's expertise and went on to become a recognised master distiller himself.

At the outset, Wild Raspberry...

By 1913, Eugene Massenez had become a front runner by distilling Wild Raspberry for the first time... this brandy became a phenomenal success thanks especially to the loyalty of the Queen of Sweden who fell in love with this Raspberry on her visits to Hohwald in Alsace.

Indeed, she come to Alsace to use Eau-de-Vie for her health, and at the beginning not to drink it! And that is how Massenez became official supplier to the court of His Majesty the King of Sweden.

Massenez and fine French gastronomy

Nevertheless, it was not until the 3rd generation in the 1950s with Gabriel Eugène Massenez that the Massenez distillery really took off. Both forerunner and visionary, Gabriel decided to think big and develop his brand for fine gastronomy, especially the famous grand brasseries of Paris: Flo, Bofinger, Pied de Cochon... His good interpersonal skills and the quality of his products gave him access to the great Michelin-starred chefs of the period like Bocuse, Verger, Troisgros, Lameloise, Haeberlin, Blanc...and some beautiful restaurants such as La Tour d'Argent, Maxime's, Lenotre... In short, Massenez became a fixture at great French restaurants and a must-have for gastronomy.

And today ?

Associated since 2010 with Grandes Distilleries Peureux, Mr. Bernard Baud directs the distillery in Alsace with Manou Massenez and Elodie Naslin. Concerned to ensure the quality of their products and aware of the difficulties for the industry on the spirits market, this dream team continues to develop Massenez for export and in France though a feminine image, due to the historical importance of the Raspberry eau de vie and the emergence of a new profile of consumers through cocktails: women!

So Maison Massenez continues with this avant-garde line and through its new timeless muse, MISS MASSENEZ, advocates a completely new consumption of eaux de vie, creams and liqueurs: cocktails! Inseparable from the French lifestyle! Refined, Chic, Elegant... The exclusively masculine image of the after-dinner liqueur is finished, follow Miss Massenez and tra.....

Eau de Vie

Poire in bottle:

98 POINTS FROM WINE ENTHUSIAST

Emblematic of the Massenez brand, the Pear Prisonnière fascinates, as much by its taste and olfactory qualities than by its pear-shaped bottle trapping the pear inside. The bottle is simply placed on the pear in its flowering... then the fruit grows inside the bottle, at maturity the fruit and the bottle are delicately detached.

Kirschwasser:

The KIRSCH stands out for its typicity, power and balance. This intense nose with its characteristic almond note marks the quality of the selection of the original fruits and the delicacy of the distillation. An Eau-de-Vie whose aromatic complexity is unequaled.

Poire:

AWARDED AT THE 2011 WORLD SPIRITS SELECTIONS IN CANADA

The particularly fruity aroma of Williams Williams' PE liquor Massières is very much appreciated. This is no coincidence since a bottle contains the equivalent of fourteen kilograms of Williams pears. This relatively new eau-de-vie has been around for about forty years and is very popular thanks to its prestigious image and its original character. Wanted by connoisseurs from around the world.

Framboise:

Old Raspberry Eau-de-Vie is remarkable for its delicacy, refinement and balance. A subtle emotion that mirrors the fragility of Raspberry. The sustained nose is an indication of the quality of the selection of the original fruits and delicate distillation.

Massenez Golden Eight:

"LA" SIGNATURE OF A GREAT PEAR WILLIAMS LIQUEUR

With its expertise as a distiller and liquorist for nearly 150 years, the Distillerie Massenez offers a great signature to its Golden Eight® Pear Pear liqueur, enhanced by a blend of its pear eaux-de-vie eight years old.

G. & E. Massenez

Massenez Creme:

de Cassis: The Creme of Dijon Blackcurrant Massenez is recognized worldwide for its incomparable flavor. The creaminess and roundness of this cream are the signature of the quality of Creams & Liqueurs Massenez.

Fraise: The Creme of Wild Strawberry Massenez is one of those creams whose fragility of the original fruit is opposed to the intensity of the aromas that characterize it. A beautiful harmony for a cream acclaimed for its quality around the world.

Framboise: Raspberry, a feminine fruit par excellence, is delicately revealed in Massenez Raspberry Creme. A fragile fruit that is so intense, both olfactory and taste, that this cream will surprise your senses. An explosion of flavors!

Gingembre: An exoticism that flatters your senses ... An incomparable intensity in this Creme of Lime and Ginger Massenez. Power and elegance characterize this cream ... a nod to new trends but especially a surprising flavor and power.

Griotte: Creme of Cherry Massenez is characterized by its powerful aromas, fleshy, and greedy. The sugar of the fruit balances perfectly with the acidity tip of the core found in the middle of the tasting. An exceptional cream.

Mûre: A creme of blackberry rich in flavors, marked by the intensity of the fruit. An olfactory sweetness faithful to the tasting also very sweet but harmoniously balanced by a touch of acidity, typical of blackberries.

Pêche: Massenez Peach Creme is distinguished by the delicacy of its fragrance so faithful to the sweetness of the original fruit.

Extracting
the best from nature...

Massenez Garden Party:

Basil: The basil, freshly cut, is directly macerated in alcohol then distilled. A simple addition of sugar and coloring is enough to elaborate this liqueur, restoring perfectly the organoleptic signature of the basil. An exceptional aromatic intensity!

Thyme: The fresh thyme is directly macerated in alcohol surfin then distilled. A simple addition of sugar and coloring is sufficient for the elaboration of this Liqueur, restoring perfectly the organoleptic signature of this flavor.

Cucumber: The cucumber, freshly cut, is directly macerated in alcohol surfin then distilled. A simple addition of sugar and coloring is enough to elaborate this liqueur, restoring in a perfect way the organoleptic signature of this refreshing vegetable and in the air of the time.

Dried Tomato: A unique spirit, created from the maceration of dried tomato and specially distilled to keep the aromas of the plant intact, resulting in an exceptional and mind-blowing aromatic signature.

Cilantro: The fresh coriander is directly macerated in the alcohol surfin then distilled. A simple addition of sugar and coloring is enough to elaborate this liqueur, restoring in a perfect way the organoleptic signature of this aromatic with innumerable virtues for our health.

Rosemary: The fresh rosemary is directly macerated in alcohol surfin then distilled. A simple addition of sugar and coloring is enough to elaborate this liqueur, restoring in a perfect way the organoleptic signature of this aromatic with innumerable virtues for our health.

MATA VERMOUTH TINTO

MATA VERMOUTHS

Dating back to a family recipe from 1880, Mata Vermouths reflect the family heritage of generations of winemaking. Patrick Mata's ancestors have been producing this artisanal Spanish vermouth for well over a century, and developed the perfect recipe over time through trial and tribulation of over 40 blends. This one came out on top.

Having sold the original winery in the 1970s in Malaga, Mata Vermouth is now made in the northern Spanish province of Bierzo. The vermouth is considered 'French Style' meaning, it is slightly drier and aged for more than 18 months with its spices. This process allows for better integration of flavor through gentle co-mingling of wines and herbs. In addition, the alcohol is more seamless and integrates into the flavors more elegantly.

THE RESURRECTION

The Mata Vermouth resurrection has always been a personal dream of Patrick Mata, co-founder of Olé Imports. His family sold these vermouths in the US prior to prohibition, and now, almost 100 years later, he is thrilled to re-introduce these historic beverages back into the country. Bringing these artisanal vermouths into the market is a way of honoring his loved ones from generations past, while offering the discerning aperitif drinker something special and unique.

MATA VERMOUTH TINTO

The vermouths of Europe are seeing a renaissance in the US. The Mata family offerings represent a provenance in family tradition which brings flavors of old into the present. While the exact blend is a secret, some of the dominant botanicals are dry chamomile, clove, vanilla and turmeric. With a spicy and slightly heady flavor profile, Mata Vermouth evokes flavors of woody forest floor, ripe macerated berries and African spice. Delicious on its own, over ice, or blended in your favorite cocktail, Mata Vermouth provides unique flavor, longstanding history and pedigree winemaking in every sip.

GRAPE: 100% Mencía

VINIFICATION AND AGEING: The vinified wine macerates for approximately 18 months with various roots, flowers and savory herbs. Examples include Ceylon cinnamon, star anise, clove, saffron, bitter orange peel and sage. Once maceration is complete, the vermouth is filtered and slightly fortified. Wine spirits are added, along with a small amount of grape must, to create a rounder mouthfeel.

ALCOHOL CONTENT: 15.0%

美鶴乃舞 mizu shochu

TRADITIONAL JAPANESE SHOCHU,
HANDCRAFTED AND SINGLE DISTILLED
IN ARITA, JAPAN BY THE 宗政酒造
MUNEMASA SHUZO CO.

SINGLE DISTILLED, CRAFT SHOCHU

Mizu Shochu 美鶴乃舞 is handcrafted and single distilled in the traditional Japanese way, and follows the honkaku 本格焼酎 style of production, meaning 'genuine, authentic' shochu. Limiting the distillation to a single pass preserves the naturally occurring flavors and aromas. With each additional pass – most common spirits are distilled at least two times – the more neutral and flavorless the spirit becomes. It is the time-honored Japanese practice to distill themoromi 'mash' only one time in order to capture and highlight the true essence of the raw ingredients. The result is a more natural taste that is complex, earthy and exquisite. It is a celebration and a tribute to the purity of nature and the flavors of the harvest.

These original, authentic methods of shochu production date back to the 16th century and took root in the mountain villages and lush valleys of Kyushu in southwestern Japan. It is here in Kyushu, in the small town of Arita in Saga Prefecture, where the Mizu Shochu 美鶴乃舞 is produced.

Stainless steel pot still at the Munemasa Shuzo Co., Arita, Japan.

HARMONY: LAND, FARMER, DISTILLERY

CRAFTED ENTIRELY FROM OUR
LOCAL HARVESTS AND WATERS.
100% SOURCED FROM WITHIN
SAGA PREFECTURE, JAPAN.

美鶴乃舞 mizu shochu

SHOCHU | JAPAN'S ORIGINAL CRAFT SPIRIT a 500 year old, terroir-driven distillate from Japan's rural south

Really **big in Japan**, shochu (焼酎) is trending and even outsells both sake and whisky. So popular, that annual production is more than 3x that of all the tequila produced in Mexico.

Single distilled to express the natural essence and terroir of the raw ingredients. Source and selection of the harvest headline the story of each shochu and reflect its rustic charm.

The use of **'koji'** (麹) distinguishes shochu from all other spirits, imparting beautifully earthy, umami notes. This microbe – also used in soy sauce, sake, and miso – breaks starches into fermentable sugars.

Traditionally enjoyed neat, **on the rocks**, with hot or cold water, or topped with soda. Widely mixed in **highballs** (called chu-hai's) with soda+citrus, or tea.

A highly nuanced craft spirit, vs. 'soju' an industrial Korean spirit, vs. 'sake', a brew of rice and koji.

MIZU | HANDCRAFTED & SINGLE DISTILLED high proof shochu; a deeper, bolder expression of the harvest

Produced by the Munemasa Shuzo Co. in the famed pottery village of Arita in Saga prefecture – island of Kyushu. Craft distillers with **150+ years of tradition**.

Sourcing **entirely from local farms** in Saga, and the pure, soft waters of nearby Black Hair Mountain.

Its **higher proof** (35%abv) is a tribute to shochu of old, and delivers a spirit of greater depth and body vs. many of today's shochu diluted down to 25%abv.

Supremely smooth for sipping, with the strength to stand alone as a **featured cocktail spirit**.

Mizu is the moniker for Mizunomai (美鶴乃舞), which means **"dance of the beautiful crane"**.

MUNEMASA SHUZO CO.

SAGA BARLEY

95 PTS - ULTIMATE SPIRITS CHALLENGE
DOUBLE GOLD - NY WORLD SPIRITS COMP

Classic barley shochu, based on 400 year old recipe from Iki island, off the coast of Saga.

2/3 two-rowed barley (varietal found only in Saga), 1/3 black koji rice; single distilled; rested 12+ months.

Floral, sake-like nose, reminiscent of a young whisky on the palate. Buttery mouthfeel with long finish. Banana bread, cantaloupe, fresh grains, hint of custard & sweetness, balanced with touch of umami.

Traditionally enjoyed over ice, with soda or hot water. Exceptional versatility in cocktails, shaken or stirred.

TWO-ROWED 'SAGA' BARLEY

LEMONGRASS

First and only lemongrass shochu produced in Japan; single source harvest from the nearby town of Takeo.

Not a flavored, or infused spirit! This is actual fermentation of fresh, organic lemongrass.

95% rice with white koji, 5% freshly cut lemongrass; single distilled; rested for ~9 months.

Bright & citrusy nose with hints of sake. Silky mouthfeel, with notes of rice pudding, meyer lemon.

Plays well in classic gin cocktails, shaken or stirred, especially citrusy highballs (even just soda & lemon).

GREEN TEA

Rich, bold, distinct. Incomparable to other spirits.

Not a flavored, or infused spirit! This is actual fermentation of freshly picked, steamed tea leaves.

Green tea (sencha) sourced from nearby Ureshino, one of the oldest sites of tea cultivation in all Japan.

61% two-rowed barley, 29% black koji rice, 10% green tea leaves; single distilled; rested ~3 months.

Deep matcha-like aroma. Creamy mouthfeel with long finish. Hints of banana, rich chocolaty notes, balanced with touch of umami.

Best in simple cocktails where less is more: green tea martini, matcha mule, or an amazing hot tea toddy.

美鶴乃舞 MIZU SHOCHU

Mosswood

BERKLEY, CALIFORNIA

About

Mosswood Distillers is an independently owned and operated spirits company by partners Therese Agnew & Jake Chevedden, specializing in unique barrel aged spirits.

Offerings include Mosswood Whiskey, Day Rum, and Night Rum. Mosswood products are subtle, nuanced, and tell a story, springing from the glass and traveling through the senses.

Their Story

Mosswood was founded out of a passion for whiskey. Their dream to distill is embedded in their name, Mosswood Distillers, but their joy is realized in barrel aging and blending exceptionally made spirits sourced from established distilleries. Mosswood's founding partners are Therese and Jake, who discovered romance after working together.

Therese utilizes her artistic background to design and develop new products, label and all. She also has a keen olfactory, for better or worse, and is elemental in blending and quality management.

Jake utilizes his wine and spirits knowledge to inform our taste profile development, loves to work with numbers, and is eager to get out and see clients, whether it be a delivery or to share our offerings.

THE PROOF IS IN THE PROOFING.

MOSSWOOD DAY RUM

Mosswood's take on light rum, Day Rum is a four times distilled molasses based rum. They source the rum from Puerto Rico, and blend it with sourced Floridian Rum. These two rum varietals are brought to proof in red wine barrels, bourbon barrels, and neutral barrels, each used as a blending component for the final touches before bottling. Despite it being their "unaged" light rum, one will see a subtle golden hue to the spirit from their proofing techniques.

Cask Finishing

Barrel Selection straight from the source, hand picked to ensure utmost quality. Nurturing relationships across culinary disciplines.

MOSSWOOD APPLE BRANDY BARREL FINISH WHISKEY

Mosswood's originally sourced barrels used to mature an apple brandy distilled in upstate California, Germain-Robin—considered one of the best Apple Brandy producers in the world. They also source barrels from their friends over at Arkansas Black Applejack, located on Treasure Island, who blend some exceptional brandy as well.

MOSSWOOD SOUR ALE FINISH WHISKEY

The Sour Ale Barrel aged Whiskey is aged additionally in barrels freshly emptied of Drake's beer called Brette Davis Eyes. This whiskey originated from their research and development department's small barrel experiments. They took what they learned from that experiment, and used a beer on a different taste profile spectrum as their ACE'd technique. This was a floral hopped red ale, and after time in the small barrel, they revisited it to transfer whiskey into the beer barrel. Upon opening the barrel, the ale had naturally soured, similar to the sour beers present in the market today.

MOSSWOOD ESPRESSO BARREL FINISH WHISKEY

Enjoy the Espresso Barrel aged Whiskey and its long standing history with Mosswood. This was their second ever release and are proud of its continued results. The finish is subtle yet bold, with hints of coffee balanced against a sweet undertone. Once the whiskey has matured, it is finished in a barrel seasoned with a cold brew of Bicycle Coffee's Espresso Roast. As a result, the whiskey has notes of milk chocolate, roasted nuts, red fruits and coffee.

Delicate Proofing

Selecting quality water, added to the spirit slowly and deliately over time, ensuring full spirit integration and improved mouthfeel.

Minimal Filtration

Showcasing the clean, bright, earthen, rounded quality of the spirits. Embracing the flocculations that occur after bottling.

Port Chester, NY

NEVERSINK SPIRITS

Producers of Apple Brandy, Gin and Fine New York State Eau de Vie

AMERICA'S FAVORITE FRUIT:

APPLES Apples are the cornerstone of Neversink Spirits' production. In 2012, through a grassroots effort from volunteers and friends, they planted over 350 apple trees on Camps Road Farm. Spirits produced from the over 15 varieties of apples, all difficult to obtain heritage varieties that produce excellent cider and brandies, will excite the palate with new ways to experience America's favorite fruit.

WHO THEY ARE NEVERSINK SPIRITS was founded by two long-time friends with a passion for spirits, wine, food, and nature. After years of tasting, tinkering, sipping and planning, Noah Braunstein and Yoni Rabino found a project in which their passions could be realized – and Neversink Spirits was born. Making spirits is their calling, apples their muse, and they finally found the vehicle in which to share their vision with their fans.

THE QUALITY A spirit's quality can only be as high as the ingredients from which it's made. When they formed a team with Camps Road Farm and Kent Falls Brewery to form a local collective known as "The Food Cycle," they knew they had found a way to make their spirits truly unique.

SUSTAINABILITY Working together, the partners carefully developed a growing plan for the farm, cultivating ingredients specifically designed to make exceptional spirits and beers. Being able to verify the supply chain's provenance allows Neversink Spirits to make spirits of the highest quality, while minimizing the footprint on our planet. Waste from the brewing and distilling processes is recycled back on the farm as compost and animal feed, increasing the productivity of the farm and closing the sustainability loop.

GIN Neversink Spirits Gin starts with a New York State apple base spirit that is carefully distilled through a blend of 11 botanicals to create a well balanced, floral and aromatic gin. They focus on botanicals that pair nicely with apples, including three types of fresh citrus, star anise, cardamom, cinnamon, elderflower, and, of course, juniper. It's a delicious, full-flavored gin that is great to sip on with an ice cube or in your favorite gin cocktail.

APPLE BRANDY Neversink Spirits clear apple brandy delivers a pure, honest reflection of the apples' characteristics. Fruit brandy, popular in Europe, and gaining more acclaim in the U.S.A., is a truly unique way to experience a fruit; they capture a power, complexity of flavor, and clean fruit notes, unique to this class of spirits. Neversink Spirits clear apple brandy is great to sip after dinner or as part of a cocktail. The blend of apples gives several layers of flavors: cut green apples, spice, vanilla, woods, and pear fill the senses as you take a sip. A round, clean mouth feel and subtle lingering spice will leave the palate happy. A clear apple brandy is hand-crafted from New York State apples. Neversink believes that just as wines reflect the character of the soil and climate in which they are grown, a fine apple brandy can showcase the unique qualities of apples grown in New York State.

ORLEANS BORBÓN MANZANILLA FINA

THE STORY OF ORLEANS

In 1849, during an exploration expedition of Andalucía, Don Antonio de Orleans, the Duke of Montpensier and son of King Louis Philippe of France, fell in love with the magical fishing village of Sanlúcar de Barrameda and planted his roots there. Among various business ventures Don Antonio de Orleans began cultivating vineyards and slowly building the foundation for the family tradition that would become Sherry. A century later, his descendants developed the family's various ventures into a Brandy and Sherry business which carries on today as Bodegas los Infantes de Orleans Borbón. Housed in a XIX century courtyard palace influenced by the Moors, this classically built winery within Sanlúcar de Barrameda, cellars some of the finest sherry soleras in the region. Today, Infantes de Orleans de Borbons is owned by the Spanish Royal Family and until very recently, these wines were sold only in very limited quantities outside of the Royal House - wines fit for a King.

JEREZ, SPAIN

ORLEANS BORBÓN MANZANILLA FINA

Manzanilla can only come one from place in the world, Sanlúcar de Barrameda, because of its natural environment's ability to grow flor, an indigenous yeast byproduct of fermentation that when developed in this three tier microclimate of Sanlúcar, creates a unique and complex style of fino wine called Manzanilla. This is the first time that the Royal wines of Orleans Borbon are available for sales in the United States.

RATING HISTORY: 92 W&S Magazine, also rated "2013 Year's Best Buy Wine" by Wine & Spirits Magazine

GRAPE: 100% Palomino. Vines planted in 1973. Tended in albariza soil from 40 - 90 m (131 - 295 ft) of elevation

PAIRING SUGGESTIONS: Fine Manzanilla like this should be consumed like any fine white wine: shared with delicious food and better company. Served nicely chilled, Manzanilla is the perfect match for little bites of salty foods like fried anything, shellfish and oysters, cured meats, olives, almonds, cheese and even sushi. It is also quite appropriate as an afternoon beach beverage, at a picnic and always a nip while preparing dinner.

VINIFICATION AND AGEING: This fresh Manzanilla is made from 100% Palomino bottled from 3 criaderas with an average of 5 years. To enhance its characteristic freshness, there are only 2 bottlings per year which happen during the late Spring and Fall when the flor is at its peak growth. It is during this time that the wines are more strongly protected and therefore express a finesse and delicacy that is enhanced by a rich lees-y quality.

PRODUCTION: 1,500 cases

LOCATION, SOIL, CLIMATE: The historical fishing port of San Lucar de Barrameda is situated within the northern province of Cádiz where the mouth of the Guadalquivir River flowing from Jaén, empties out into the Gulf of Cádiz and Atlantic Ocean on the southeastern coast of sunny Andalucía, Spain. The Albariza soil is predominately pure white, calcium rich chalk that endures the hot, arid summers of southern Spain by baking a crust atop the sunshine drenched vineyards, preserving winter's moisture below for hydration of the vines. The altitudes in this flat, coastal region range from 200-400ft. The temperatures in Sanlúcar de Barrameda are cooler than in Jerez de la Frontera and very desirable. With averages highs of 22C (72F) and lows of 13C (56F), there are nearly an impressive 3,000 hours of sunshine per year and the summers are glorious. Most of the 584 mm (23 in) of annual rainfall occurs from September through December.

TASTING NOTES: Straw in color with tangy aromas of the sea rounded out by fruity lemon curd, almond skin, toasted bread and yeasty notes on the palate, this Manzanilla has a complexity fit for a King.

ALCOHOL CONTENT: 15%

PENDERYN

DISTILLERY

WALES, U.K.

'Distilling in Wales was a lost art...'

...but in the late 1990s, in a pub in a small post-industrial Welsh valley town, a group of friends drank and chatted about establishing the first whisky distillery in Wales in over a century. They dreamt of creating a whisky as pure and precious as Welsh gold, represented today by Penderyn's 'gold seam'.

The friends had a location in the historic village of Penderyn on the southern tip of the Brecon Beacons, chosen because of the site's own supply of fresh natural spring water. They also had a unique copper single-pot still designed by Dr David Faraday, a relative of the great 19th-century scientist Michael Faraday. Penderyn Whisky was launched on St David's Day 2004 in the presence of HRH Prince Charles.

Penderyn produces their own malted barley spirit which, when matured, is recognised worldwide as one of the finest single malt whiskies. The majority of their spirits go into casks for ageing in their cellars. The remainder is used to craft other award-winning products. With investment, inspiration, hard work, attention to detail, the finest barley, expert distillers and the best American oak bourbon casks, Penderyn Whisky has quickly gained a worldwide reputation.

PENDERYN CELT SINGLE MALT

Celt is a single malt whisky finished in ex-peated quarter casks, bottled at 41% abv. (43% in the USA)

NOSE: Mild aromas of peat smoke, early morning at the rocky seaside and warm marmalade on toast all compete for our attention.

PALATE: It begins with great sweetness before the smoky, slightly medicinal flavours descend..

FINISH: Slight bitterness follows that leaves a long and lingering freshness in the mouth.

PENDERYN LEGEND SINGLE MALT

Legend is a Madeira-finish single malt whisky, bottled at 41% abv. (43% in the USA)

NOSE: Aromas of fresh apples and citrus fruits intermingle with cream fudge and sultana raisins to create a complex yet fresh, clean and well-balanced whisky.

PALATE: Incredibly smooth and both fresh and rich dried fruits abound. Delicate and sweet on the palate with just a hint of bitterness to remain refreshing.

FINISH: A long aftertaste of Madeira cake and sultanas.

PENDERYN MADEIRA SINGLE MALT

This whisky is the original Penderyn 'house style', aged in ex-bourbon barrels and finished in ex-Madeira wine casks to bring out its full gold character. It is bottled at 46% abv.

NOSE: A classic freshness with aromas of cream toffee, rich fruit and raisins.

PALATE: Crisp and finely rounded, with the sweetness to balance an appetising dryness.

FINISH: Notes of tropical fruit, raisins and vanilla persist.

BALANCE: Oaky vanilla tones/dry sweetness

PENDERYN MYTH SINGLE MALT

Myth is a single malt whisky finished in a range of specially selected ex-red wine casks, bottled at 41% abv. (43% in the USA)

NOSE: Fresh and lively, Myth has mixed citrus fruits mingling with apple, pear drops and the merest hint of tropical fruits.

PALATE: Sweetness dominates then moves over to allow some refreshing bitterness to emerge while the mixed fruits continue to dominate the flavour.

FINISH: Gradually all the flavours ebb away to leave memories of a lively and light style of whisky that is easy to drink.

PENDERYN SHERRYWOOD SINGLE MALT

The Penderyn Sherrywood in this bottle has been aged in ex-bourbon barrels and ex-Oloroso sherry casks to bring out its rich fruity flavor.

NOSE: aromas of dark fruit and rich toffee mingle with green apples and hazelnuts to create a deeper mystery.

PALATE: Rich sweetness gives way to refreshing dryness.

FINISH: Sweet notes of toffee and sultana persist in the long finish.

BALANCE: Sherry and oak/winter spices

'A lost art no more.'

THE WARMTH AND CHARACTER OF ISLAY

Port Askaig

Islay

ISLAY SINGLE MALT SCOTCH WHISKY

THE ESSENCE OF ISLAY

THE STORY

Port Askaig is a range of Islay single malt whiskies that embodies the unique spirit of Islay and its people.

Nestled into the north coast of the island, Port Askaig has been the gateway to Islay for hundreds of years.

The unique spirit of the people and the beautiful, rugged surroundings has inspired the nature of this whisky - crafted by the people and shaped by Islay's distinct atmosphere.

Each bottling offers the perfect balance of smoke, peat and sweet, fruity flavors typical of the best whiskies from this beguiling isle.

The range has been developed to appeal to the most discerning of whisky connoisseurs while also appealing to the novice whisky drinker. These exceptional casks of Islay's single malts have created a range that will become recognised as an Islay classic.

Limited Batch

Each expression within the range is bottled in limited batches. While recognising that each bottling will vary, the aim is to achieve a consistency of quality and character over time. To ensure each whisky maintains its original flavour and character, the whiskies are not chill-filtered and no coloring is added.

Port Askaig 110 Proof

Gold Medal San Francisco World Spirits

Competition 2018

WoW 2018 – SILVER OUTSTANDING in the category of Malt Peated Medium

NOSE: Smoke and hay at first, then green apple, salt and white pepper.

PALATE: Quite spicy and peppery with ample smoke and more savory umami notes. Dry on the tongue, with more charred meat and heavily toasted multigrain bread.

FINISH: Concentrated smoke almost verging on hickory.

Port Askaig 8 year

95 points by Ultimate Spirits Challenge 2018

NOSE: Lemon zest and coal smoke with warming barley just turned on the malting floor.

PALATE: Limestone, sugar snaps and coating of dark peat. Honeysuckle weaved with licorice sweetness.

FINISH: Fresh flavors of rock salt and black pepper linger as the smoke slowly fades.

Port Askaig 25 year - *enquire*

NOSE: Initially a phenolic smoke character complemented by tropical fruits

PALATE: Meaty, with soft leather, oatmeal with walnuts and grated nutmeg, dried orange peel and a sprinkling of white pepper.

FINISH: Vegetal notes continue, with herbs including thyme and bay leaf. The warmth lingers like dry woodsmoke from a log fire.

Port Askaig 45 year - *enquire*

NOSE: Fruity, combining both tropical and fruit: apples, pears, papaya and mango.

PALATE: Bittersweet oranges, mangos and warming spice with contrasting mint and green-tea notes.

FINISH: Fruit fades to leafy herbs which become warming and minty.

RAMALLAH GOLDEN ARAK

ARAK

Arak, nicknamed "the milk of lions" is the traditional alcohol of choice in the ancient Levant region and throughout the Middle East. Its cousins - raki sambuca and pastis - are popular in other areas across the Mediterranean and Europe.

Commonly consumed in social settings, the drink is famous for its potency, and the milky-white color it turns when water is added to it.

ORIGINS

Arak is known to have existed since the beginning of distillation itself. The liquor is widely consumed in Lebanon, Iraq, Syria, Jordan, Palestine, Israel, Turkey and Iran, and in recent years has made a successful entrance in Western markets.

ESTABLISHED AS THE LEADING ARAK IN THE US MARKET CELEBRATING 100 YEARS SINCE INCEPTION IN 1919

VINTAGE RETRO LABEL DESIGNED SPECIFICALLY FOR ELEVATED SHELF APPEAL AND BACK BAR PRESENCE

VALUE/QUALITY RATIO REPRESENTED AS BEING THE BEST IN THE MARKET

MIXOLOGISTS CHOICE FOR ITS POWERFUL YET SMOOTH AND INTENSE FLAVOR AT AN UNMATCHED VALUE

PALATE CLEANSING

COOL

REFRESHING

CREAMY TEXTURE

MELLOW

LICORICE

PEPPERMINT

SMOOTH FINISH

A POTENT LIQUOR that hails from the Middle East. Arak is a clear, colorless liquor flavoured with anise, similar to ouza, pastis, or Raki.

ARAK is typically made from grapes, though dates, sugar plum, figs, and molasses can be used depending on the region where it is made. Though Arak in its pure form is colorless, the clear liquid is aniseed-flavored. Aniseed is added to the distilled alcohol during the second of three distillation processes. The ratio of aniseed to alcohol can vary which results in different qualities of arak, but the strength of the drink usually falls between 30%-60%.

MIX WITH: WATER, JUICES, OR COCKTAILS

50% ABV

RANSOM
 WINE Co &
 DISTILLERY
 SINCE 1997

RANSOM SPIRITS was started by Tad Seestedt in 1997. Initially, the distillery made small amounts of grappa, eau de vie and brandy. In 1999, Ransom began the production of a number of small-batch fine wines, and In 2007 they took up the craft of grain-based spirits, adding gin, whiskey and vodka to the lineup. By 2010, they combined crafts of winemaking and distilling to create their first Dry Vermouth.

Ransom Farms is located in the Willamette Valley in the foothills of the Coastal Mountain Range. Ransom purchased a forty-acre farm outside of Sheridan, Oregon in 2008. Barley has been planted since 2008, and their first vines were planted in the spring of 2010. In keeping with their commitment to sustainability and stewardship, the farm has been certified Organic since 2011.

“ We believe that wine and spirits are a celebration of life ”

Ransom believes that wine and spirits are a **"CELEBRATION OF LIFE."** Drinking premium quality, handcrafted wine and spirits can compliment good food and add to the sense of delight and fulfillment found in gathering to eat and drink. It is the function of libations to enhance fellowship, discussion, and the exchange of ideas. So visit the market, invite over friends and family, and raise a toast to health and happiness through good meals, conversation and socializing!

Ransom Dry Vermouth

The base wine our our Dry Vermouth is a blend of organically and conventionally farmed aromatic white varietals and Pinot Noir blanc. The fortifying brandy is Alambic pot distilled in house from a blend of wines from Pacific Northwest grapes. Barrel aged in mixed French oak. [Wine Enthusiast - 94 points](#)

Ransom Sweet Vermouth

The base wine for this sweet vermouth is a blend of organically and conventionally farmed aromatic white varietals, including Gewurztraminer, Muscat, Riesling and Pinot Gris. To this base Ransom adds the brandy, alambically distilled in house and barrel aged in mixed French oak. The Vermouth is then infused with a tantalizing blend of aromatic botanicals.

Ransom Old Tom Gin

This Old Tom Gin is a historically accurate revival of the predominant Gin in fashion during the mid 1800's and the golden age of American cocktails. The recipe was developed in collaboration with historian, author, and mixologist extraordinaire David Wondrich. Old Tom is the Gin for mixing classic cocktails dating from the days before prohibition. Its subtle maltiness is the result of using a base wort of malted barley, combined with an infusion of botanicals in high proof corn spirits. The final distillation is run through an alambic pot still in order to preserve the maximum amount of aromatics, flavor and body.

Ransom Grappa

An elegant, effusive expression of both the varietal character of the grape and the time-honored traditions of fermentation and alembic distillation, our Grappa is carefully crafted to an unparalleled standard of quality. We harvest aromatic white varietals at optimum ripeness and lightly press sending the free-run juice to become wine and saving pomace that still holds a high percentage of juice for grappa. The skins and pulp are immediately covered with water to prevent oxidation and fermented with yeasts selected for optimum aromatic expression.

Ransom Dry Gin

Fashioned after Holland's renowned malt wine genevers, Ransom Dry Gin combines the maltiness and hop aromas of the style with a decidedly more intense botanical infusion. The selection of botanicals for this gin was done with tradition in mind, but we also sought to capture the essence of our terroir with the inclusion of the iconic Oregon Marionberry and local hops. The result is a highly aromatic gin with the most compelling attributes of both genever and dry gin styles. We believe speaks meaningfully to its Dutch heritage as well as its Oregon provenance. Excellent for sipping neat, or mixed in a Collins, Improved Holland Gin, Bramble, or Kopstoot.

Ransom Henry DuYore's Rye Whiskey

Henry DuYore's Rye Whiskey speaks to our aspiration to release spirits that balance the character of their grains of origin with the influence of the years passed in oak barrels. An abiding fondness for the flavor of rye inspired us to produce our own bottling. With this Rye Whiskey, we sought to temper the admirable innate feistiness of rye with the rich, supple flavor of malted barley.

Ransom The Emerald Whiskey

We know that the whiskies made in Ireland today little resemble their 19th century predecessors. Trouble was, there was none of the traditional whiskey left to taste in our quest to recreate the long lost gems of the Emerald Isle. Fortune gave us two good turns; a British excise agent who recorded an Irish mash bill in 1865, and our friend David Wondrich, who found said recipe poring over the microfiche annals of history and passed it along to us. With this mash bill as our guide, we set out to create our own interpretation of a traditional whiskey of Ireland. To call our version modern might be a stretch— We grow a percentage of the barley organically on our farm, our grains are milled, mashed and fermented in small batches at our distillery and farm in the emerald hills of Sheridan, Oregon, and we distill according to our senses in our handmade, direct-fired alembic pot still. The Emerald matures in a mix of French and American oak for three years, and is hand bottled, capsuled, and labeled. The result is a highly aromatic spirit with the weight, richness, and complexity of its forebears.

Ransom Rye Barley Wheat Whiskey

Our Rye, Barley, Wheat Whiskey is carefully crafted using the finest traditions in distilling—It has been distilled in hand hammered, direct fire, alembic copper pot stills and only the very best portion of the cuts, the “**heart of the hearts**” has been kept at the still— We have, however, chosen to flaunt conventions of category with our decisions about the mash bill and barrel program. Years of blending have convinced us that diverse mash bills produce whiskeys that are more evocative and interesting, so we worked diligently to craft a rich, complex palate of grain flavors by blending six grain components. To protect and enhance these delicate cereal flavors, we elected to forego the conventional heavily charred new oak in favor of used 60 gallon toasted French oak barrels, most of which formerly held Pinot Noir. These barrels contribute weight and depth to the spirit without erasing or obscuring the character of the grain, which we feel should define a premium whiskey. The result is a whiskey which we feel offers unprecedented depth, complexity, and body.

Ransom WhipperSnapper - Oregon Spirit Whiskey

We took our sweet time selecting premium ingredients, meticulously milling the grain, working and fermenting the mash, and most importantly, making well-considered, ruthless cuts at the condenser. Pot distillation is a slow, lengthy process, that when done properly and patiently can take 16 hours for one pass through the still. Rushing things usually leads to inaccuracy. On the other hand, critical decisions for making the right cuts need to be made within minutes, sometimes split seconds. This is likely where the wildness came from. Sometimes even the most well thought out of plans seem to develop a mind of their own. Anyway, we kept and collected only the very best fraction of distillate and lovingly placed it in oak to mature.

COGNAC RAISON PERSONNELLE

COGNAC, FRANCE

Raison Personnelle 1.1 - *enquire*
Wood fire distilled. Extremely limited:
204 numbered bottles in existence.

Sabine and Bertrand de Witasse are the proud owners of two Charentais copper pot stills, one of which dates back to 1935. They are among the very last who continue to distill Cognac over a wood fire. This gives their Cognac its rare singularity. Master distillers know how hard wood-fire is to control, and Bertrand has become one of the last to master this ancient technique.

RAISON PERSONNELLE 1.1 is a blend of eau de vie from **15-19 years old**. Distilled in '96, '97, '98 and 2000, bottled May 14th 2015. There are only 204 bottles of the 489 created of this extraordinary cognac left in existence.

TASTING NOTES
The nose is robust, round, with hints of iris and of vanilla-soaked wood aromas, this singular cognac opens up with notes of mature flowers marked by honeysuckle and hazelnuts, accompanied by subtle notes of leather. Nicely balanced hints of Roncio add to this Cognac's complexity. On the palate the attack is supple, the aromatic notes are complex, round; the flavor evolution persists with notes of hazelnut, white fruit and leather followed by hints of spice.

40.8% ABV

In 1994, for personal reasons (raison personnelle) Sabine and Bertrand de Witasse chose to leave their jobs in Paris to become Cognac producers. For the last 25 years they have mastered the vineyard, winemaking, distillation and ageing. Today, they successfully operate a 50 acre vineyard in the heart of Grande Champagne the premier cru of Cognac.

AXBERG, AUSTRIA

THE ORIGIN

Since 1956 the farm, located in the idyllic Upper Austrian Axberg near Linz, is owned by Hans Reisetbauer.

Hans has led the distillery for 20 years. His belief is and was always to produce enjoyment on the highest level.

His staff, the latest technology and his particular intuition for quality makes his brandies unique. Reisetbauer brandies are an indispensable label on the international market. Different awards and prizes like multiple "best distillery of Austria" and "master distiller of the year" are underlining his success.

THE DISTILLER

Hans Reisetbauer philosophy is "quality sets friendship". This motto is lived through his orchards and the distillery and that is where the unique taste comes from.

The quality of the fruit determines the quality of the brandies. This is why only the best fruits are processed to Eau-de-Vie.

Equipped with one of the most modern distilleries in Austria Hans is working according to the highest quality standards.

THE FRUIT

Quality means - according to Hans Reisetbauer - to show which resources and treasures that nature offers us if you live, work and enjoy with all senses.

The main part of all fruits used in production are flourishing around the farm in "Axberg". The fruits growing on about 13,000 williams pear trees and 7,000 apple trees are only picked by hand! To enable the fruit to grow with even more sustainability the whole farm changed to organic production.

The range of apples at the "Kirchdorfergut" starts with Arlet, Elstar, Gala, Boscop, Idared, and ends with Topaz, Rubinette and Pinova. Of course there is also a huge range of pears: the famous Williams pear and the "Red Williams", "Gute Luise" and "Dr. Guyot".

In addition, Hans Reisetbauer also has his own 4 hectare plum orchard and harvested the quinces from his master distiller.

The apricots for the award-winning apricot brandy come from Hans's good friend and well-known vintner Bernhard Ott. They have been working together since 1999.

"QUALITY SETS FRIENDSHIP"

REISETBAUER

SINCE 1994

BRANDY - EAU DE VIE

APRICOT

Hans Reisetbauer Apricot Eau de Vie

Intense aroma, fresh-fruit, typical ripe yet elegant stone-fruit notes; soft and creamy on the palate with silky, mellow fruitiness.

CARROT

Hans Reisetbauer Carrot Eau de Vie

Ideal, typical carrot flavor; crisply fresh with bittersweet, slightly earthy notes on the palate, well-differentiated, balanced fruit with a long finish.

PEAR

Hans Reisetbauer Williams Pear Eau de Vie

Ideal, typical, ripe, juice fruit, discreet spice and piquancy, lively and stimulating; youthful taste with lovely fruit-spice interplay, with great potential for further development.

PLUM

Hans Reisetbauer Plum Eau de Vie

Appealing, creamy aroma, caramel pudding, bright flavors, balanced on the palate, chocolate with no hint of stones.

VODKA

AXBERG VODKA

Hans Reisetbauer Axberg Vodka

Axberg Vodka uses a single wheat variety "Mulan", which is grown and harvested from Reisetbauer's own fields in upper Austria. This perfect raw material produces length, great mouthfeel and no sugar. That is why "Mulan" is perfectly suited for a Vodka with incomparable clarity & flavor. The spring water used for AXBERG VODKA comes from an alpine spring in the Mühlviertel, a district in the northern part of upper Austria. This pure, clear water springs from primary rocks formed in the tertiary period, equal to the excellence of AXBERG VODKA.

GIN - BLUE GIN

BLUE GIN

Hans Reisetbauer Blue Gin

"In our opinion, the production of Premium Gin needs passion, attention to detail and the desire for quality."

The journey begins with the wheat variety "Mulan". It grows on fields in Upper Austria and is a beautiful raw material to start the distillate because of the region where it is found. The distillation takes place in a traditional, small copper pot still. After the pot-still-distillation to the so-called "fine distillate", the botanicals come into play. Different, meticulously chosen botanicals from all over the world are incorporated by "maceration". This wonderful smelling essence is then allowed to rest for a while and after that, it is distilled for the third and final time.

SLOEBERRY GIN

Hans Reisetbauer Sloeberry Gin

Reisetbauer wanted to create a Gin as a counterpart to the classical BLUE GIN. It should contain less alcohol but should also have much more flavor. And this was when they came up with the idea: SLOEBERRY BLUE GIN.

The name giving element is the sloe berry, which is part of the rose family and has a very high vitamin C content. The classical BLUE GIN is diluted with the juice of organic sloe berries. After the maceration and carefully compression the unbelievable complex aromatic is shown.

WHISKEY

7 YEAR WHISKY

Hans Reisetbauer 7 Year Whisky

Hans Reisetbauer ages his whisky in used oak casks from Austrian vintners. These Chardonnay and Trockenbeereauslese casks shape the distillate into a rich, vibrant and bold libation with pronounced aromas and flavors of chocolate, caramel, baking spices, and berry fruit.

SINGLE CASK NATION

est. 2011

THE AIM AND DIRECTION OF SINGLE CASK NATION IS TO DISCOVER THE RAREST CASKS AND BOTTLE THEM AT CASK STRENGTH.

Ledaig 13 year old - [enquire](#)

This cask bottling, distilled in October 2005, spent 13 years maturing in a 2nd fill Oloroso Sherry Butt. It was bottled at cask strength in March 2019 at 57.1% ABV.

Nose: Sea spray over pebbles on the beach, delicate coal smoke and pine tar, warm oatmeal with apple and cinnamon, fruit cake fresh from the oven with raisins and boozy cherries.

Palate: Pleasantly oily with dried figs, dates, raisin bread, vanilla ice cream sprinkled with sea salt, and returning coal smoke.

Finish: Long and memorable, redolent of dark chocolate with almonds and sea salt then returning fruit cake.

Glenburgie 20 year old - [enquire](#)

This cask bottling, distilled in December 1998, spent 20 years maturing in a 2nd fill bourbon Hogshead. It was bottled at cask strength in March 2019 at 58.9% ABV.

Color: Olive Oil

Nose: Warm and malty with aromas of cardamon and creme brulee, caramel and cigar wrappers, lemon pinwheels, tinned pears, and spiced vanilla, then hints of fruit cake and toasted hazelnuts.

Palate: Wonderfully viscous with pronounced malt, spun sugar, cinnamon buns, graham crackers, then hints of browning pineapple and apple butter.

Finish: Moderate to long with continuing malt presence, powdered ginger, a hint of cinnamon and grilled pineapple towards the end.

Clynelish 23 year old - [enquire](#)

This cask bottling, distilled in September 1995, spent 23 years maturing in a 2nd fill Oloroso Sherry Butt. It was bottled at cask strength in March 2019 at 52.4% ABV.

Color: Burnished Brass

Nose: Stewed fruits at first blush complimented by cinnamon buns and crushed Luxardo Maraschino cherries. Pipe tobacco in the distance but the dark fruits keep coming to the fore. Add to this, guava paste with a dark chocolate dusting.

Palate: The mouthfeel is so waxy it's almost chewy. Sweetened wheat germ and muesli loaded with black currants, dark chocolate nibs, and fresh pomegranate seeds. As flavors build, notes of used books and hot dry attics become apparent. The pipe tobacco note returns as well.

Finish: Long and now peppery with hints of warm dates and prunes.

Cameronbridge 26 year old - [enquire](#)

This cask bottling, distilled in September 1992, spent 26 years maturing in a refill Oloroso Sherry Butt. It was bottled at cask strength in March 2019 at 53.3% ABV.

Color: Fresh engine oil

Nose: Cooked stone fruits, spiced cured meats, baked avocado with red pepper flakes, fresh party balloons, pickled walnuts, dusty bookshelves, hints of smoked cumin, fresh deck of playing cards.

Palate: Mouth puckering sherry dryness with more pickled walnuts, roasted red fruits, and warm cinnamon with hints of distant struck match. The mouthfeel is dense and waxy with additional rich sherry oak notes (without being too woody), crushed and cooked walnuts, and a concentrated sherry reduction.

Finish: Long and rich with warm oak, soft black pepper, and a lingering red fruit juiciness.

THE COMMUNITY

Single Cask Nation™ began as a social fellowship or membership society organized to purchase rare, fine single cask whiskies under the Single Cask Nation label. More than a mere club, Single Cask Nation™ represents a unique virtual community in which members share a common affinity for the quality whiskies and other spirits of the world.

SINGLE CASK NATION:

Founded in 2011 by Joshua Hatton and Jason Johnstone-Yellin, two former whisky bloggers, Single Cask Nation is the United States' only independent bottler following the Scottish tradition. Each cask selected is bottled at natural cask strength, free from chill filtering and artificial color, with the distillery source front and center. While Joshua and Jason established their reputation with exquisite Scotch selections they also bottle American bourbon, rye, single malt, light whisky (aka American grain whisky), rum, and mezcal.

SOTOL ONÓ

CHIHUAHUA MEXICO

Sotol has been made for more than 800 years by Rarámuris and Anasazis (native ethnic people from Chihuahua) and it was a spirit almost forgotten.

Sotol is a distilled spirit made from Dasyliirion commonly named Sereque in Chihuahua. As part of the Nolinaceae family it grows along the North of México and the Southwest of the USA including Texas. This plant resists the extreme dessert weather with high temperatures and dryness, and typically grows on rocky slopes in the Chihuahuan desert grassland between 3,000 and 6,500 feet above sea level.

The Dasyliirion is actually related to onions and garlic plants, and it is not an actual agave but a Yuca, this is why it has such a unique flavor.

Dasyliirion Cedrosanum takes about 12 to 15 years to be ready and it is a wild harvest. The jimador is the one responsible of choosing the Mata or head of the sotol plant, he makes sure the plant is mature and ready to harvest, he knows they are ready to harvest because the plant starts exuding a substance similar to syrup or honey. They pull out the plant from the earth with axes, they proceed to cut the spiny leaves of leaving only the Piñas ready to transport to the Vinata.

Once in the Vinata, they roast the piñas for about 3 days, then they grind them using axes and knives, the next step is the fermentation, this lasts between 5 and 7 days, depending on the weather.

ARTISANAL SOTOL

*“Onó ko iwitarime,
ko’wáame binoi arewá...
wi’ri iwitarime Onó”*

*“Onó gives life & feeds the soul...
Long live the Father”*

PRODUCT OF MEXICO

SOTOL ONÓ SOTOL

ABV 45%

Sotol Onó is made from 100% Dasyliirion Cedrosanum and only one bottle can be distilled from a single piña. It is handcrafted in Aldama, Chihuahua by Gerardo Ruelas who is a third generation Maestro Sotolero part of a family that has produced Sotol in the state of Chihuahua for generations.

TASTING NOTES

Clean, bright, dense and pristine to the sight, displays a silver hue with abundant pelage.

On the nose it's complex, herbaceous and spiced with hints of fresh green asparagus and white peppercorns. It's elegant nuance is reminiscent of damp earth and tubers like the Yam bean and yuca in a fresh herbal frame such as epazote and avocado leaf.

On the palate it feels fresh and joyful. A smooth texture follows a fruity mid palate of guava, coconut and ginger.

The dry finish is long and very complex in spices and minerals.

New York, NY

St. Agrestis was founded in 2014 by sommeliers upon returning to New York from a three-month trip through-out Italy. The trip furthered their passion for the unique regional amari and became the inspiration to create a regional amaro of their own.

AGRESTIS (ADJ.):
Latin, meaning “of the wild, of the earth”

Negroni

24% ABV
A perfectly balanced negroni, designed to be consistently boozy, bitter and refreshing every time in an innovative format. St. Agrestis Negroni begins with fresh fruit, followed by delicate yet pronounced florals and spice. All the components are evident, with notes of juniper cutting through the bitter. Citrus offers fresh acidity through-out. On the finish, bitterness comes in waves, intensifying as the balanced sweetness subsides. From start to finish, this drinks with intense complexity and freshness unachieved in most any other negroni.

Amaro

30% ABV
The amaro begins by individually macerating twenty organic herbs, spices, flowers, roots, seeds and citrus in a neutral base spirit. After each botanical has been perfectly extracted, the twenty tinctures are married together and transferred to ex-bourbon barrels. In barrel the amaro rests for a minimum of eight weeks before the twenty separate flavors become one unified amaro. Organic cane sugar is then added to provide roundness and balance to the bitter nature of amaro.

Inferno

24% ABV
A red bitter aperitivo should be BITTER. Designed around the negroni, this is meant to be the greatest compliment to gin and vermouth in the iconic Italian cocktail to have ever existed. With no artificial coloring, a concentration of organic herbs, spices, flowers and the world’s best citrus, this is a real aperitivo that was developed for real aperitivo drinkers. As bold as its Brooklyn origins, St. Agrestis Inferno Bitter tastes like tradition, with refreshingly intense complexity. Enjoy in a number of cocktails or simply mix with club soda, into a negroni or drink with freshly squeezed orange juice.

SWEETDRAM

DRINK DIFFERENT

ABOUT

Progressive, flavour-driven spirits made in Edinburgh, Scotland

Sweetdram recently built a distillery on an industrial estate in Sighthill. It's a bright, creative space, a platform for disrupting the tired drinks landscape with subversive spirits that don't conform to conventional categories.

Sweetdram refuses to imitate other brands, and they do not produce gin.

Instead, Sweetdram chases flavor, sometimes for months on end, in the pursuit of something genuinely exciting and different to drink.

These spirits are the products of those journeys.

Produced in Edinburgh, Scotland

ESCUBAC

Tangerine & caraway sorbet spread roughly on cardamom shortbread.

A modern, juniper-free botanical spirit distilled then infused with raisins, vanilla and saffron. Guaranteed to alleviate gin fatigue.

Mix with tonic or sip and savour on its own like a purist.

34% ALC/VOL

"Tonic has a new best friend."
- Bon Appetit Magazine

The Dream

The dream became reality in Spring of 2016, when Irish farmer Liam Ahearn, along with his fiancée, Jennifer Nickerson, and her father, Stuart (Scottish-based whiskey pro,) collaboratively opened Tipperary Boutique Distillery and launched the first bottling of Tipperary Single Malt Irish Whiskey called "The Rising." 2,000 bottles were gobbled up by the world-wide whiskey community almost immediately.

Tipperary Boutique Distillery is situated in the beautiful and bountiful setting of the Golden Vale in Ireland.. The unique location combined with a knowledge & passion affords the opportunity to create great whiskey from their own barley, grown on Ballindoney farm in County Tipperary.

The land at Ballindoney has been farmed by the Ahearns for as long back as parish records are available (over 200 years). Lying in Ireland's Golden Vale, the farmland is fresh and green in spring, maturing to glorious golds as crops ripen for harvest.

The farm lies on a plain of land sheltered by the Galtee, Knockmealdown and Comeragh mountains, with fresh water flowing down to be collected and used to cut the Watershed whiskey.

The Whiskey

Watershed

"Watershed" is the first whiskey to be cut to 47% with water from Ballindoney farm in Tipperary.

Only six first-fill bourbon casks are chosen for each batch of Watershed, carefully selected for quality by the Malt Master, Stuart Nickerson. After being cut to 47% with the Ballindoney water, they number every bottle individually, so each one is special.

Tasting Notes: The nose opens with strong vanilla and sweet fruit notes, followed by hints of grain. Black pepper rises on the palate, overtaken by vanilla fudge and just a trace of raisins. The smooth finish is warm and comforting, honey on hot buttered toast.

Knockmealdowns - enquire

'Knockmealdowns' honors the Knockmealdown mountain range, which straddles the border between County Tipperary and Waterford and overlooks the Ahearn Farm.

'Knockmealdowns' is one of the Tipperary's new 'Mountain Range' – a series of older whiskeys celebrating the land in County Tipperary. 'Knockmealdowns' is created from only six casks and matured in Ireland for 10 years in ex-bourbon barrels. The whiskey is cut to 47% with water from Ballindoney Farm. Like Watershed and the Rising, each bottle of Knockmealdowns is individually numbered.

Tasting Notes: The nose opens with fresh oak, developing into hot caramel sauce with notes of chocolate and vanilla. The pallet is light and smooth – sweet honey cut through with citrus notes, then becoming savoury and peppery. The finish lingers, oaky with drying tannins and just a touch of ginger spice.

THEIR STORY

Normandy, France

The domain is La Couterie, the family is Toutain, and they've been distilling apple cider into Calvados for five generations, or since 1921 (commercially, that is; prior to '21 the tax man knew nothing). This is a family of **ardent traditionalists**. They cultivate their orchards in the old *hautes-tiges* manner, season new barrels thoroughly with cider to keep the flavor of wood out of their spirits, and never distill any cider before it's fermented and aged for six to eighteen months. Last but not far from least, they use no additives—be it flavor enhancers, coloring agents, or sugar—and put no yeast into their cider ferments. It goes without saying that their orchards have been farmed organically for as long as anyone can remember.

With the invention of the apple press in the 13th century, cider production became possible on a wide scale. In the same century, King Louis IX banned barley beer as a way of mitigating famine, and so apple farming for cider production quickly developed in northern France. As for the transformation of cider into *eau de vie*, the written record dates from 1553, when a nobleman (and tireless apple scholar) on the Cotentin Peninsula noted in his journal that he had just made distillate from cider.

The practice needed little encouragement to take off. When, however, the system of *hautes-tiges*, or high tree (standard rootstock) orchards became more or less systematic—with a tree planted every ten meters, or 100 trees to a hectare—isn't as clear, but the practice was widespread by the 19th century. The last quarter of the 20th century witnessed a revolution in apple orchard practices caused by the adaptation of dwarf rootstocks (*basses-tiges*) and semi-dwarf rootstocks (*demi-tiges*). These modern plantings have densities anywhere from five to ten times greater than the traditional *hautes-tiges*, and their advantage lies in efficiencies: such trees produce fruit at a much earlier age, require less land, and can be harvested by machine. On the other hand, their productive life is shorter, their close proximities require chemical treatments to ward off diseases, and they usually lack the genetic mix and diversity of traditional orchards. Finally, it's argued that qualitatively their fruit is inferior. Nor, for what it's worth, can a farmer graze dairy cattle in such orchards, as is typically done in traditional orchards.

The Toutains farm 62 acres (25 hectares) of orchards in 11 parcels, and cultivate 35 varieties, all inter-planted. These are the typical old cider varieties of northern France, Spain and England. Their apples are divided between those with sweet flavor profiles (60% of their plantings); those with bitter profiles (30%); and those with acid profiles (10%), necessitating three general harvests that altogether take from September until mid-December. Their orchards grow in deep silt soils on top of limestone.

They work with spontaneous ferments for their cider. Unlike larger, more commercially minded producers (those dastardly *les industriels*), the Toutains let their cider age properly for a minimum of six months and as long as eighteen months before undertaking the distillation process. They bottle only around 5% of their production as cider; all else is distilled in one of their six old alembic stills.

Their Calvados is aged in barrel and cask in sizes varying from standard Bordeaux barrels to enormous *foudre*, all old and many quite old (any new barrels *chez* Toutain spend their first three years aging cider before being used for the aging of distillate).

As for the Toutains themselves, Maxime started at the domain in 2007 and handles the orchards, production, and aging. His mother, Corinne, originally took over production in 1999 and now handles the bottling (she still welds a mallet to pound in the magnum corks!) as well as much of the administration. Maxime represents the fifth generation.

FINE

(3 years of age minimum)

40% ABV

Highly fruity, this Calvados is perfect in digestive. It is also recommended for cocktails, apple sorbets, as well as for culinary preparations that require a certain aromatic power and a high alcohol content.

Nose: Very fruity, complex and fine. Apple aromas with notes of vanilla and citrus. The tannins of the oak are very little present.

Palate: A lot of freshness and intensity on the palate, round in the mouth. Melted whole with cooked apple flavors and length.

HORS D'AGE - enquire

(15 years of age minimum)

40% ABV

This Calvados is appreciated by newbies. It has elegance in spades. It is rich, round and textured, yet with plenty of youthful fruit to proclaim its origins.

Nose: At first, fruity and slightly vanilla, then it is more floral with some citrus notes. Fine complex and without aggressiveness.

Palate: Sweet and round on the palate. Very balanced between aromas of green apples, dried fruits, vanilla and the woody oak. Long and melted in the mouth keeping the freshness.

VIELLE RESERVE - enquire

(45 years of age minimum)

40% ABV

This is Calvados oldest. Woody, full-bodied and long in the mouth, it has retained all its aromatic power throughout the years of aging in oak barrels; what makes the name of such a product.

Nose: Woody, intense and persistent. An extraordinary amplitude and very accomplished nose with first aromas of fresh apples, then a nose more of licorice and caramelized apples.

Palate: Invasive, intense and elegant. Marked by light aromas of tarte tatin and madeira. Very long length and persistence in mouth.

“SAÚL AND I ARE THE THIRD GENERATION TO CARRY ON THIS TRADITION” - ALEJANDRO OCAMPO

Their family has been making tequila here in Amatitán for three generations—using the passed-down traditions and techniques that were born here in this region. Now, Alejandro and brother Saúl are the Maestros Tequileros (Master Tequila Distillers) of the family. They watch over every batch of Trianon Tequila to make sure it captures the taste of a true tequila. Not a single bottle of Trianon leaves the facility without meeting approval.

“WE DON'T WANT TO MAKE THE MOST TEQUILA. WE WANT TO MAKE THE BEST.” - SAÚL OCAMPO

“When other brands say they make their tequila in small batches, we’re not exactly sure what they mean. Because most other brands are mass-produced. We prefer to make our tequila only when conditions are perfect and the timing is right. And when we do make Trianon, we only choose the most ideal blue agave plants to prepare for distillation. Then, once we’ve distilled the juice, we throw out all but the purest heart of the liquid. Because nothing is more important to us than true flavor.”

“FOR US, THERE'S ONLY ONE PLACE TO MAKE THE BEST TEQUILA.” - SAÚL OCAMPO

You’ll find the family’s distillery in the town of Amatitán in the state of Jalisco, Mexico. People around there say that, centuries ago, this was home to the very first tequila distillery. And if you visit, you’ll see why. Amatitán sits at the foot of El Volcán de Tequila (the Volcano of Tequila), where the rich, volcanic soil makes the Blue Weber Agave grow larger and more luscious than anywhere else. They even use the naturally occurring yeast from the area during fermentation. It’s like this place was born to make true tequila—kind of like their family.

“WE BELIEVE GREAT TEQUILA IS WORTH WAITING FOR.” - ALEJANDRO OCAMPO

Patience is something that has been passed down in their family. Even though Mexican law says that Tequila Reposado must age for two months, and Tequila Añejo should age for twelve months, trianon believes it takes much longer for aged tequila to reach its full potential. Every bottle of Trianon Reposado is aged six months in the unique blend of American and French oak, and they leave the Trianon Añejo a full eighteen months. This allows them to find the perfect balance of oak and tequila.

“THE FIRST TEQUILA WASN'T MADE WITH MACHINES. NEITHER IS OURS. EVEN OUR LABELS ARE **HAND-PAINTED** AND POLISHED BY A LOCAL FAMILY BUSINESS, JUST LIKE OUR **HANDCRAFTED** CORKS AND BAGS. AND OUR SIGNATURE TRIPLE BOTTLES ARE HAND-BLOWN BY A LOCAL ARTISAN, SO EVERY ONE IS **UNIQUE**.” - EDUARDO OROZCO

BLANCO

THIS IS THE TRUE TEQUILA LOVERS' TRUE TEQUILA.

Trianon Blanco’s incomparably smooth taste is made possible only through the sacrifice of both the head and tail of the tequila. By bottling only the virgin distilled heart of Blue Weber Agave, Trianon Blanco captures the truest tequila taste—untainted by any hint of the biting alcohols found in other tequilas. Its clarity and purity makes it the choice of connoisseurs and the foundation of our award-winning Reposado and Añejo.

Gold winner for the 2012 SIP Awards

REPOSADO

IT'S NOT THE BARRELS THAT MAKE OUR REPOSADO. IT'S THE BLANCO.

The remarkable success of Trianon Reposado is owed to beginning with their uncompromising Blanco. The transformation occurs when Trianon rests their Blanco in specially made American and French Oak barrels for six months—four months longer than Mexican law requires. The result is a true agave taste and smoothness combined with complex notes of aged oak.

Gold winner for the 2012 SIP Awards

AÑEJO

OUR BLANCO IS THE SECRET TO OUR AÑEJO.

Trianon ages their Blanco a full eighteen months in specially made American and French oak barrels to make Trianon Añejo. Because that’s how long it takes to strike the perfect balance between the taste of oak and agave. Trianon could stop at 12 months like other makers, that’s not the Trianon way. Aging longer allows the oak’s rich flavor to reach its full expression, perfectly complimenting the true agave taste of Trianon tequila. With its warm, amber color and sweet aroma, the Añejo is best savored neat.

Platinum winner for the 2012 SIP Awards

DETROIT, MICHIGAN

TWO JAMES SPIRITS COMPANY

Born out of the belief that family, friends and community are essential parts of life, Two James is far more than just an extraordinary product. Two James commemorates the exceptional lives of two great men who through hard work, perseverance and passion for life, were able to leave lasting impressions on the people they loved and the communities in which they lived.

Two James is located in Corktown, Detroit's oldest neighborhood, and is the first licensed distillery in Detroit since Prohibition. Two James is committed to producing only the highest quality environmentally conscious handmade spirits utilizing locally sourced agricultural products with the aim of revitalizing the community and reinforcing the craft product movement.

Two James Spirits is proud to be the first licensed distillery in the city of Detroit since prohibition. At Two James, our passion lies in creating small, handcrafted batches of premium spirit, usually locally sourced ingredients that highlight Michigan's agricultural abundance, and more importantly, the people and city of Detroit.

"THE SPIRIT OF DETROIT"

TWO JAMES

JOHNNY SMOKING GUN WHISKEY

Johnny Smoking Gun is a story of East- Meets-West. This is a whiskey crafted specifically to compliment the "umami" of the rich pork and fish broths of Japanese cuisine. Possessing intriguing smoke character from a two-stage maceration with a proprietary blend of Asian tea, this blend of 70% 7-year corn and 30% young rye will surely not disappoint. Enjoy and prosper!

87 PROOF

TWO JAMES

CATCHER'S RYE WHISKEY

Distilled from 100% Michigan rye and pure water from the Great Lakes, Catcher's Rye is a testament to the grain's distinctive terroir. Each drop is artfully produced and aged for a minimum of two years in traditional, charred new American oak 53 gallon barrels. With delicious spice notes and a subtle fig finish, Catcher's Rye proves there is no substitute for time or proportion. This is a labor of love, accept no phonies.

98.8 PROOF

TWO JAMES

RYE DOG

We welcome you to taste our first expression of field-to-bottle whiskey. This Double Gold winner (2014 San Francisco World Spirits Competition), un-aged, Michigan rye possesses character beyond its years. Distilled from 100% locally grown rye grain from Wing Farms in Ann Arbor, Rye Dog possesses floral and citrus notes with a round mouth feel. Call me Rye Dog!

101 PROOF

TWO JAMES

GRASS WIDOW BOURBON

Grass Widow Bourbon contains a unique high rye mash bill of 36% Rye, 60% Corn and 4% Barley. This delicious bourbon possesses intriguing levels of spice and complexity. The hazelnut and dried raisin notes are results of our proprietary Madeira Barrique finishing. Two James is excited to become a part of and honor the glory of Detroit's whiskey roots with the resurrection of the Grass Widow name.

91 PROOF

TWO JAMES

J. RIDDLE PEATED BOURBON

Two James Spirits is proud to announce the release of our newest spirit, J. Riddle Peated Bourbon. This unique spirit pairs the sweet robust flavor of corn bourbon with the elegant smokiness of single malt whiskey. The mash bill possesses subtle notes of vanilla, buttered popcorn, sea salt, fresh cut grass and light smoke. What started off as an experimental mix of grains developed into a delicious bourbon unlike any other on the market. Distilled on-site from 79% Michigan Corn and 21% Scottish Barley and aged in full-format 53-gallon new American oak barrels, we are excited to release our first barrels and for you to savor and enjoy!

91 PROOF

TWO JAMES

BARRELL RESERVE OLD COCKNEY GIN

Just like the Old Cockney Gin, Two James uses a proprietary blend of botanicals and an all organic wheat base. Then the gin is rested in new American oak barrels for a minimum of 6 months before bottling. The oak aging adds a very subtle toasted vanilla note and accentuates the citrus peel. Martinez drinkers beware, you have never met it's equal.

91 PROOF

TWO JAMES

OLD COCKNEY GIN

Old Cockney is a contemporary style gin crafted from a base of organic winter wheat. The botanical blend of coriander and orange peel provide nice floral and citrus aromas and flavors, which are balanced by spice from black peppercorn and earthy elements from orris root, angelica root and gentian root. The gin possesses heavy juniper, but pine notes serve as an undertone in the flavor profile. The result is a dry, smooth gin with a unique but harmonious balance of flavors—a true cocktail connoisseur's gin.

82 PROOF

TWO JAMES

ABSINTHE NAIN ROUGE

Two James was excited to bring the Green Fairy to Detroit and the Great Lakes Region with the release of their Nain Rouge Absinthe Verte. Starting with a traditional 19th century French recipe we distill Wormwood, Fennel, Green Anise, and over 100 pounds of botanicals to create a spirit that has an unfathomable depth of flavor and complexity. Colored with peppermint, hyssop and nettle to produce a beautiful rich earthy green color.

120 PROOF

TWO JAMES

DOCTOR BIRD RUM

Because of their belief in the importance of local agriculture and the fact that sugar cane isn't readily available in Michigan, they decided to take their Rum project to the Caribbean, and the "Land of Wood and Water". They import several different Jamaican rums and ship them back to the distillery in Detroit where they are artfully blended and aged in special Moscatel barrique. The result is a high ester flavor bomb of incredible length and complexity. The Doctor is most definitely IN!

100 PROOF

TWO JAMES

ISLAND VODKA

Distilled from 100% Michigan rye and pure 28 Island Vodka is carefully crafted from a blend of 70% corn and 30% organic winter wheat and distilled with the finest American-made copper pot still. The result is a remarkably smooth, balanced spirit with a hint of sweetness that makes an excellent addition to both classic and modern cocktails. The name references the 28 islands of the Detroit River that served as safe haven for Detroit's clandestine distillers of the prohibition era.

82 PROOF

TWO JAMES

DOS JAIMES MEZCAL JOVEN

Distilled in Oaxaca, Mexico (NOM-0120X) in partnership with Pierde Almas and bottled under the Dos Jaimes name, this Mezcal is made from a blend of espadín, wild tepeztate and wild tobalá agave plants. Made from 100% agave in compliance with the laws and regulations of the Mexican government.

96 PROOF

Detroit, Michigan

Valentine

— DETROIT —
DISTILLING CO.

SINCE 2007

ABOUT

Established in 2007 and among the nation's first craft distilleries, Valentine Distilling company is an American pioneer of small batch, handcrafted spirits. The company's award-winning vodka, gin, and bourbon are available throughout in eight states and in six other countries. In the tradition of Detroit's manufacturing leadership, Ferndale, Michigan-based Valentine Distilling company is dedicated to American ingenuity, quality manufacturing, and small batch distilling using old world techniques that create superior products.

“I am taking a stand against mass produced spirits. I am here to prove that American ingenuity and quality American manufacturing are still alive.”
-RIFINO VALENTINE

FOUNDING PHILOSOPHY

"I have a simple philosophy: everything that I do must be done with quality in mind above all else," says Rifino Valentine, Founder, Valentine Distilling Co. "I've always appreciated the American craftsman; working by hand, making one of a kind items that stand the test of time."

In an era of mass production, squeezing costs and maximizing profits, one important thing is lost: quality. Taking a stand against mass-produced spirits, Valentine proves that American ingenuity and quality American manufacturing is still alive. In distillation, this means selecting the best ingredients, distilling in small batches, and caring in every single step of the process.

"I take great pride in using old world techniques, techniques that haven't changed in centuries. There are no computers controlling the stills, just our sense of taste and smell to determine the cuts," according to Valentine.

TRADITIONAL VODKA

Valentine's signature vodka, distilled in copper pots is clear and has mild aromas of banana-coconut pudding and pastry aromas with a silky medium to full body and a creamy, peppery spice and talc finish. It is derived from a proprietary blend of three grains: corn, wheat and barley. They are one of the few distilleries in the world to craft vodka from a blend of grains.

Valentine Vodka has been recognized by Anthony Dias Blue, editor-in-chief of The Tasting Panel magazine as one of the top vodkas in the world with a 94-point ranking – placing higher than noted international brands like Belvedere, Ketel One, Grey Goose and Absolut. Valentine Vodka was also awarded a Gold Medal at the San Francisco World Spirits Competition. In 2011, this Michigan-made product received a Double Gold Medal in the "Best Domestic Vodka" category by TheFiftyBest.com. The Beverage Tasting Institute also awarded Valentine Vodka with a Gold Medal "Exceptional" in both 2010 and 2011.

VALENTINE WHITE BLOSSOM

The white blossom vodka starts with our award winning vodka and is then infused with elderflower and grapefruit. It is sweetened with all natural beet sugar from Michigan grown beets. Rich tropical aromas and flavors of lychee, peach, and elderflower with a satiny, dry-yet fruity medium-to-full body and a warming, peppery spice, cream, powdered sugar, and mineral finish.

An expertly balanced and very flavorful floral vodka that earned a Gold Medal from The Beverage Testing Institute rated 92 points from a blend of grains.

LIBERATOR GIN

Valentine Liberator Gin, named after the B-24 Liberator Heavy Bomber produced in Detroit during World War II. Liberator is clear with aromas of peppery cinnamon, honey cardamom pastry, dried citrus, and candied juniper with a silky, dry-yet fruity medium-to-full body and a zesty mélange of citrus, herbal roots, anise, pink peppercorn, and cinnamon bark on the long finish. Valentine hand selected nine botanicals from around the world. Bold flavors are brought to life through a longer maceration process while lighter notes are produced with a special botanical infusion process.

Liberator Gin earned 90 points from the Beverage Testing Institute in 2013, "Best in Class and Best in Show" at the American Distilling Institute's 7th Annual Judging of Craft Spirits, and a Gold Medal from the International Craft Spirit Awards.

LIBERATOR OLD TOM GIN

Only a handful of distilleries in the world produce a barrel-aged gin like our Liberator Old Tom Gin. Valentine takes their Liberator Gin and age it in American Oak barrels for 2 years. Old Tom Gin has an aroma of juniper and pine with hints of oak, woody spices and citrus peel. The initial bursts of juniper berries are mellow and tame, and are followed by touches of vanilla, citrus, cardamom and cinnamon. Liberator Old Tom Gin is a rich and unique Gin that is worth the wait.

Liberator Old Tom Gin earned the title of 'Best Cask Gin in the World from the World Gin Awards. It also received a Gold Medal from the International Craft Spirit Awards.

MAYOR PINGREE RED LABEL BOURBON - enquire

Hazen S. Pingree, mayor of Detroit (1890-1897), is considered one of the greatest mayors in US history. He was a champion for the Detroit, fighting monopolies and corruption. Mayor Pingree Bourbon whiskey is selected from exceptional barrels of Valentine's own Ferndale, MI triple pot distilled bourbon, married with the finest Lawrenceburg, IN traditional column-distilled straight bourbon casks. It is honoring the enduring spirit of 'Old Ping' with a bourbon for the people.

MAYOR PINGREE ORANGE LABEL RYE - enquire

This whiskey is a classic representation of an American Rye. Made from a combination of two mash bills and aged for at least 4 years.

Nose: Freshwater cattail stalks, hayloft and caramel candy.
Mouthfeel: Round, smooth and viscous front bridges sleekly into an abrupt, keynote rye-spice finish.

MAYOR PINGREE BLUE LABEL BOURBON - enquire

Valentine's Mayor Pingree 'Blue label' Single Barrel Straight Bourbon is bottled from a single cask sourced from the former Lawrenceburg, IN distillery at full proof and non-chill filtered. Each single barrel was hand-picked by individual retailers to reflect the flavors and attributes most preferred by their specific clientele. Aged for at least 10 years, these selections reflect some of the oldest casks to ever age in the state of Michigan... straight from the barrel and uncut.

MAYOR PINGREE BLACK LABEL BOURBON - enquire

Valentine's Mayor Pingree 'Black label' Bourbon is a limited release bottling deftly married from a special inventory of casks sourced from the former Lawrenceburg, IN distillery. The inaugural 2016 Small Batch blend was designed to showcase the 'outlier' profiles of barrels that have matured distinctive notes from those of their peers. Masterfully married for depth, layered flavor and complexity, the result is 324 bottles of bourbon at least 9 years of age, presented non-chill filtered and cask-strength at 117.2 proof with a robust nose and powerfully lingering finish.

PRODUCED IN GALICIA SPAIN

Vánagandr Gin

Vánagandr is inspired by the most famous wolf in Nordic mythology: **Vánagandr or Fenrir**. The wolf that, according to the prophecy, was meant to finish the gods off at Ragnarök.

Vánagandr Gin is distilled according to the **London Dry** method on a hand built Galician still, using the 100% wheat neutral grain spirit, fine botanicals, and Galician water.

Production: Botanicals are macerated separately in a neutral grain spirit, then distilled for 14 hours using the one-shot method. The spirit is cut with local water, and less than 500 bottles are produced per batch.

Style: London Dry

Botanicals: Juniper, Angelica Root, Cassia, Orris Root, Cilantro Seed, Orange, Lemon, Cardamom, Nutmeg, Licorice, Ceylon, Cinnamon

Aromatics: Complex and intense, with prominent aromatics of tangerine and lime, orange blossom, iris, and brown baking spices.

RIEDEL BAR

DRINK SPECIFIC GLASSWARE

Continually innovative and at the forefront of design, RIEDEL presents the **RIEDEL BAR DRINK SPECIFIC GLASSWARE collection**. In union of past and present, this new collection answers the need for cocktail-specific glassware among restaurants and bars, with six glasses, which have been perfected for thousands of cocktails. The glasses are based of the traditional serves for the seven classic cocktails: The Old Fash-ioned, The Manhattan, Daiquiri, Sour, Peasant, Buck and Julep.

NEAT

ROCKS

NICK & NORA

SOUR

HIGHBALL

FIZZ

May we recommend...

Phone: 612.310.5150

THE ROCK

Available in three sizes, the rock is the most popular cube. Useful for any cocktail served in a lowball, any single pour spirit, or crack it with the back of a spoon to vary the size and create beautiful light catching corners.

THE ROD

Want to make a simple vodka soda special? Use the rod, and watch it vanish in the glass. This cube is equally at home in complex collins drinks, or simple spirit + soda cocktails. Whatever the cocktail, the rod really disappears in the glass.

THE CYLINDER

To really make a statement, use the cylinder. Its large size means it melts very slowly and takes up a lot of room in the glass. A standard 10.5oz old-fashioned glass with a cylinder will hold approximately 3oz of liquid allowing bars to keep portion sizes in control while maintaining the visual appeal of a generous portion and full glass.

THE SHARD

The shard is a very versatile cube. It fits virtually any glass. Each hand chiseled shard is roughly the size of a golf ball. Stack them in a collins glass, use one in a wine glass for brunch cocktails, use in a lowball for single pour spirits, and in angeled sided lowballs where the rock's corners prohibit a cozy fit. Also perfect for stirring and shaking cocktails.
